INDUSTRY'S WESTERN GOAL

RICHMOND RECORD HERALD

A RICHMOND PAPER FOR RICHMOND PEOPLE

FOURTH PORT ON PACIFIC

TODAY'S ODDITY

COMPTON, June 13.— UP —When a jailor sniffed a suspicious aroma in a jail cell here today, he investigated and found Leslie Rosenfelt 19, enjoying himself on a mixture of raisins, figs, sugar and water he had concocted in a milk bottle. The mixture tested seven per cent alcohol.

VOL. XXVI, No. 2208 TELEPHONE 70-71 RICHMOND, CALIFORNIA, SATURDAY MORNING, JUNE 14, 1930. TELEPHONE 70-71 PRICE, 5c

SLAYER OF BEAUTY FOUND GUILTY

THREE COUNTIES STRUCK BY $25,000 BRUSH FIRE

'ROUND 'N' 'ROUND

The newsie is about knee high to his papers. You see him every night peddling his green "sheets" down Macdonald avenue, shrilling "extree" at the top of his voice.

* * * *

Thursday night a half hour after the fight was over, this same boy walked down Macdonald avenue with a big stack of papers under his arms, crying "all about the big fight."

* * * *

A half hour later a passer-by stopped him and purchased one of the big stack of newspapers.

* * * *

"How's business, sonny?" he asked.

* * * *

The newsie curled his face into a look of intense disgust and replied, "Dawgone the radios."

* * * *

This cry was probably echoed by the circulation manager of the paper, who counted the thousands of fight extras that were returned to him.

* * * *

The radio killed these fight extras.

If the fans didn't have a radio of their own, they went to their neighbors.

* * * *

And if the neighbors didn't have any they went down town and stood with hundreds of other fans before the radio shops.

* * * *

As a result, they heard, almost blow by blow, the big battle—thrilled with the spectators at the ringside thousands of miles away — and cheered with them.

* * * *

And when the 'extras' about the fight appeared, on the streets the fight was "cold" as far as these fans were concerned.

* * * *

But the newspaper has its place when big news is concerned—radio will never take its place in that respect.

WINE THEFT JAILS YOUTHS

MARTINEZ, June 13.—Accused of having stolen a 25 gallon keg of wine from the premises of Joe Mangini, in Ygacio valley, five Concord and Walnut Creek youths were today booked at the county jail on charges of burglary. They are: D. McCombs, 22, Dan Quittner, 21, Burton Reneau, 21, John Parkel 19, and Edmond Morrow, 19.

Mangini claims that about a week ago the five youths visited him and asked him to sell them some wine. Mangini says that when he told them he had no wine for sale they left. Subsequently, two locks on a barn in his premises were broken and the wine stolen.

Three Killed In Train-Car Crash

PEORIA, June 13.—UP—A Rock Island passenger train ploughed into a machine which had stalled on the tracks north of here early tonight, killing three persons and injuring another.

The dead were Mrs. Harry Dancy 50, her daughter, Margurite, 11; and Albert Gatchel, 49, driver of the car.

Mrs. Ida Baumgartner, 51, is expected to die.

The automobile stalled on the firemen's side of the track and he was busy firing at the time. The car was carried three blocks before the train stopped.

THE WEATHER

Fair today and tomorrow; fog at night. Mild, fresh west winds.

DEFENSE TO APPEAL CASE

EUREKA, June 13.—UP—Clarence L. King was convicted by a jury here tonight for killing his common-law wife, Minnie "Mickey" McCoy and the verdict makes a sentence of execution mandatory.

The defendant will appear before Superior Judge Harry W. Falk next Tuesday and will probably be sentenced to be hanged at San Quentin, where he served a term for robbery after he met Miss McCoy.

King was calm when he heard the verdict of the 10 men and two women, but his bride, Eunice Pardee King of Corvallis, Ore., broke into tears.

After his release from San Quentin he met his bride and renewed his friendship with Miss McCoy.

He was accused of killing Miss McCoy while on an auto trip with her through northern California on Feb. 20 last. The body of the girl was found weeks later, hidden behind a log in a dense redwood forest.

Marc Morrison, defense attorney, announced he was planning an appeal.

Probe Of Death Of Woman Asked

LOS ANGELES, June 13.—UP—Investigation of the death of Mrs. Kathleen Parris Walsh, 25, was requested by the Salt Lake sheriff today in a telegram received by Los Angeles aurthorities.

Mrs. Walsh, who supposedly shot herself yesterday in the apartment of a Los Angeles police officer with whom she was acquainted, was believed to have been in Salt Lake the day Mrs. Dexter Moormeister was robbed of $8000 in jewels and apparently murdered and mutilated.

Mrs. Walsh was questioned shortly after the death of Mrs. Moormeister and while she established an alibi, Salt Lake officials indicated they desired a complete investigation.

Sheriff Clifford Patten asked that Deputy Sheriff Charles Kelley of Los Angeles, who accompanied the Utah officer when Mrs. Walsh was first questioned, be assigned to the investigation, it was said here.

A coroner's jury late today decided that Mrs. Walsh was a suicide.

According to the sheriff's office a transcript of the inquest testimony will be sent to Salt Lake.

School Trustees To Be Appointed

ANTIOCH, June 13.— Superintendent of schools William H. Hanlon will meet with three members of the Antioch high school board of trustees Monday to consider appointment of two new members to succeed W. H. Bloomfield and G. W. Harter, who resigned recently after a disagreement as to the selection of an architect for the new $150,000 high school.

The two men resigned when they were overruled as to the selection of a Stockton firm. Although Harter refuses to make any statement concerning his dissatisfaction with the board's selection of an architect, Bloomfield said his objections were based on experiences he had had with the firm when it was retained on the grammar school.

John Vierra Asks For Divorce Decree

MARTINEZ, June 13.—Charging cruelty, John Vierra, of Richmond today filed suit for divorce against Mrs. Mazie Vierra. According to the complaint, the couple was married in August 1928 and separated last week. Attorney T. M. Carlson is representing the plaintiff.

Hat in Ring

JAMES LONG TO RUN FOR SUPERVISOR

James N. Long, recently appointed as supervisor of the First district is out as a candidate to succeed himself. He made the formal announcement by filing his nominating petition with the county clerk.

Long will make a vigorous canvass of the voters, and there is every indication that he will succeed himself. His great strength lies in the fact that he always stands for some thing, and will wage a strong fight for the principles in which he believes.

The supervisor is not a stranger to the voters of the district, as he has occupied a number of public positions, having served as a member of the board of education, a member of the Richmond city council, and a member of the state legislature. In all of these positions, he made a record for himself that is the envy of many.

Having resided in this county for twenty-five years, Long is very conversant with the needs of every section of his district and it is safe to say that he will at all times see that the interests of his constituents are protected.

One of the signal achievements of Long in the short time that he has been supervisor, is that he put a stop to the county purchasing agent buying Chinese made goods for the county, and had conditions so changed that local people are now given an opportunituy to bid on supplies.

METTE RITES HERE MONDAY

Funeral services for the late Joseph P. Mette of Folsom, formerly of Richmond, will be held from the Curry funeral chapel at 10 o'clock Monday morning with interment following in the Presidio, at San Francisco.

Mette, a guard at Folsom prison, died yesterday morning at the Mare Island hospital. He was 53 years of age, and a veteran of the Spanish American war. He is survived by his wife, who is postmistress at Folsom.

Woman Injured In Leap From Machine

SAN FRANCISCO, June 13.—UP—Screaming with fear when she thought she saw a man in the back seat of her parked car early today, Mrs. Ruth Sherman jumped from the running board and sprained her ankle. Closer inspection showed that the "man" was Richard Bensche, aged 5, who had hopped into her car to take a nap. Mrs. Sherman went to the emergency hospital and the lad to the Bush street police station to be claimed by his parents.

TOT DEAD IN SIDEWALK COLLAPSE

ELMIRA, N. Y., June 13.—UP—Twoscore persons were thrown into a cellar excavation late today when 150 feet of temporary sidewalk collapsed alongside a building under construction at a busy downtown corner.

Half of the persons involved managed to scramble from the 20 foot hole with minor injuries. It took rescue squade three hours to dig the rest out of the tangle of wood, concrete and structural iron.

Evelyn Smolka, 11 was brought out dead. Five others were injured so seriously that they were on the danger list. They, with the other 15 more seriously injured were at two local hospitals.

Father J. A. Maley of St. Cecilia's church, was the hero. He was passing when the sidewalk collapsed and divided his time between administering the rites of the Church and dragging victims from the pit.

GRAPE CONTROL PLAN URGED

SAN FRANCISCO, June 13.—UP—Asserting that the "boat of California prosperity was due to sink," Dr. Theodore Macklyn of the Federal farm board today urged a meeting of California business men and agriculturalists to aid in the board's grape control plan.

Representatives of city and state financial industrial, horticultural and victicultural interests attended the meeting at the Palace Hotel, presided over by R. W. Blackburn, president of the California Farm Bureau Federation.

The magnitude and seriousness of the economic problem confronting the California grape industry was narrated by a dozen speakers.

Dr. Macklyn, while stating that he "did not want to rock the boat of California prosperity" maintained that it was immediately necessary to find ways to "stop the boat from sinking."

Chairman Wylie M. Giffen of the State Rellief Committee, emphasized that every effort must be made to reach the committe's sign-up quota by July 9. Only 45 per cent of the growers are now signed up, he said.

Rotary Club Hears Jurist

Judge John J. Longdon of Oakland was the speaker of the day at a meeting of the Richmond Rotary club in the Hotel Carquinez yesterday, talking on "Fraternalism." Keith Narbett was chairman of the day.

A program was also presented at the meeting, which included numbers by the Richmond trio, and vocal solos by Mrs. Elza Calfee.

S. F. Factory Hit By Blaze

SAN FRANCISCO, June 13.—UP—Friday the 13th—and 13 men and women workers of the Peroxide Manufacturing company, were temporarily out of work as a result of fire that damaged the plant, while one chemist and two firemen were recovering from serious burns. Overheating of chemical tanks was said to be responsible for the $50,000 blaze.

JULIO LEAVES

Paul Julio, one of this year's graduates of the Richmond Union high school, has left for Sacramento, where he will spend the summer with his brother, Lawrence Julio.

Runs Again

RE-ELECTION TO BE SOUGHT BY A. WILSON

With his first term in the office of coroner drawing to a close, Aubrey Wilson will open his campaign today for re-election by filing his nomination petition with the county clerk at Martinez.

The announcement will no doubt meet with wide approval of his friends of the county, who have continually felt a confidence in the able manner and genial human quality with which he invested the office.

The safe facts which resulted in Coroner Wilson's election in 1926 will be operative in August according to the many friends of the official. The experience in matters with which a coroner must deal gained in the undertaking profession in Richmond and other places, as well as actual contact with the duties of the coroner's office as deputy coroner for six years, proved convincing arguments in favor of Aubrey Wilson's election in 1926.

To those same motives in the public mind are now added the four years served in that office. In a position in which many of the sorrows and tragedies of life are brought to the surface, Aubrey Wilson has proved not only a considerate official but one actuated at all times with kindly and humane purposes.

Upon entering the contest for coroner in the 1926 election, Wilson proved an able campaigner quick and witty in speech and with a genial personality which continually won friends. This same type of campaign, upon which he is entering for the coming primaries, is expected by his friends and supporters to win a large following in the county.

ONE KILLED IN WIND STORM

RANDOLPH Minn., June 13.—UP—Cyclonic winds tore through here late today, leaving one man dead, a score injured, at least two of whom are expected to die, and property damage estimated at between a quarter and a half million dollars.

Walter Prate, section foreman on the Chicago and Great Western railroad, was blown to his death.

Two other section workers suffered internal injuries and a ten year old boy was hurt.

National Guadrsmen were called out ofter the storm to patrol this town of 275 persons.

The roof of the Commander Elevator company was blown off and at least four houses completely demolished.

A railroad roundhouse was turned into a mess of tin siding. Freight cars near the elevator were overturned and twisted.

School To Get Southern Cross

SANTA MARIA, June 13. —UP —The famous trans-Pacific plane 'Southern Cross' in which Captain Kingsford-Smith plans an Ireland to New York flight in the immediate future, will be presented to the Hancock Foundation College of Aeronautics, it was announced here today. Captain Smith offered it to Captain G. Allan Hancock, his backer on the Pacific flight, but Hancock suggested that it be displayed at the school here.

Son Of Editor Pays $50 Fine

PORTLAND, Ore., June 13.—UP —A. E. Piper, son of the late editor of the Morning Oregonian, was fined $50 today by Federal Judge McNary on a plea of guilty to a charge of assaulting Robert Gordon Duncan while he was a federal prisoner on government property. Piper struck Duncan in a rage, as Duncan had attacked Piper's father in radio broadcasts over station KVEP. Duncan has been indicted on five counts of using obscene language over the radio.

Edward Hurley Entertains Guest

Jerry Hines former resident of Stockton is being entertained this week at the home of Edward Hurley of Roosevelt avenue. Hines plans to make Richmond his permanent home.

Friday 13th Swim Costs Bather $130

Friday the Thirteenth, the day of ill omen, and the day when otherwise sane and reasonable people shun black cats crossing their paths and walk by devious routes to avoid ladders proved indeed a day of bad luck for William Benson, 2333 Valley street, Berkeley.

Benson, fearing not the doleful day, and not in the least superstitious, cast caution to the winds and took advantage of the warm sultry sun by going swimming at the beach near the Richmond Pressed Brick company.

Benson frolicked and swam in the warm waters of the bay, enjoying his outing and then went back to his car, where he left his clothes.

He dressed himself, and it would have been a perfect day had he remembered to put his wallet in a secure place but when he went thru the pocketbook, th day of ill omen was recalled vividly to his mind, because $130 in bills he left there was gone, according to a report made to police.

FLAG DAY TO BE OBSERVED HERE TODAY

With Richmond Post of the American Legion in charge of the parade, and the Richmond Elks lodge in charge of the ceremonies at the Memorial park, the first public celebration of Flag Day held in Richmond in recent years, will be held today.

The parade will start from First street and Macdonald avenue shortly after 1:45 this afternoon. The marchers will wend their way to Sixteenth street and back to Memorial park where those participating will assemble with local citizens for the Flag Day patriotic ceremonies.

The ceremonies, which will be held under the auspices of the Elks, will include patriotic music, the Flag Day ritual of the order and an address on the flag by Harry Glensor, San Francisco attorney and San Francisco county council commander of the American Legion.

Leo Marcollo will read the history of the flag during the ceremonies.

Dr. A. B. Hinkley is chairman of the parade committee, George Imbach will be marshall of the parade and Ralph Wood will be in charge of the colors. Everett Cohen, of the local post of the American Legion, and J. J. Gilmore, chairman of the Elks committee have taken active parts in the arrangement of the program.

All merchants were urged by the committees to fly the national flag in front of their establishments and the public was urged to attend the ceremonies and parade.

Deck Span Of Bridge To Be Moved Today

MARTINEZ, June 13.—The 506 foot deck span of the Southern Pacific bridge between Martinez and Benicia will be moved another step across the bay tomorrow morning when it will be moved from its present position between piers 13 and 14 to the space between 15 and 16.

The channel will be left open between piers 14 and 15 to allow for shipping until the lift span towers are completed.

CARQUINEZ ARRIVALS

Among the arrivale who registered at the Hotel Carquinez yesterday were Mr. and Mrs. B. C. Ripley, Mr. and Mrs. H. Schmidt, of San Francisco; T. M. Morgan, San Francisco; and Anne Schortegn.

FLAG DAY PROCLAMATION ISSUED BY MAYOR HERE

WHEREAS, Saturday June 14th, 1930 is the one hundred and fifty third anniversary of the resolution passed by the Congress of the United States declaring:

"That the flag of the United States be thirteen stripes of alternating red and white; and that the union be thirteen stars in a blue field, representing a new constellation;

AND WHEREAS, this banner of starry beauty in the Revolutionary War won our independence as a nation and in 1812 established a freedom of the seas and the rights of American seamen on these seas. In 1846 it vindicated our national dignity and our sovereignity which has been flouted by arrogant Mexico. In 1861 it preserved the Union. In 1898 it freed struggling Cuba from tyranny and oppression. Again victorious in the great World War, it flies triumphantly, a beauteous, incomparable emblem of liberty and freedom to all the peoples of the earth.

NOW THEREFORE, at the request of the Benevolent and Protective order of Elks, Allied Council, the American Legion, the Veterans of Foreign Wars, Spanish-American War Veterans and United Veterans of the Republic, the chairman of the Flag Day committee, representatives of those organizations, to-wit; J. Gilmore, E. Cohen, George Senderson, Ralph Wood and many citizens of the city of Richmond.

I, the Mayor of the City of Richmond do hereby proclaim Saturday June 14th, Flag Day and ask all citizens of the City of Richmond in patriotic observance, to display the American Flag and to participate in the Flag Day exercises held under the auspices of the men who have served so gloriously this nation in time of war:

Dated this 13th day of June, 1930.

A. L. PAULSEN,
Mayor of the City of Richmond.

RANCH HOUSE RAZED BY BLAZE

STOCKTON, June 13. —UP —A brush fire swept over approximately 25,000 acres near the boundary line of Stanislaus county, San Joaquin and Calaveras counties today, causing damage estimated at more than $25,000.

Several ranch buildings were destroyed before the flames were brought under control by 500 volunteer fire fighters.

Fire departments of Farmington, Oakdale, Eugene, Milton, and Escalon also joined in combatting the fire, which was believed to have been started by the firing of a rabbit hunter's shotgun.

WILSON TOT FIGHT NEARS

OAKLAND, June 13.—UP—With her husband the victor in the first legal tilt, which was aired in Judge Leon Gray's court of domestic troubles the affairs of Mrs. Florence E. H. Wilson, wife of Winfred Wilson, lumber magnate, Mrs. Wilson today prepared to fight for the custody of her two children.

Her husband was granted awarded a divorce decree, although Mrs. Wilson had filed a cross-complaint alleging cruelty.

During the hearings, Wilson's attorneys had offered evidence purporting to show that Mrs. Wilson was intimate with Chris Prest, a truck driver, and with Leland Fry, Stanford student.

Next Thursday when the alimony hearing is to take place Mrs. Wilson plans to launch her fight for the custody of the two minor children, a boy and a girl.

"Disposition of the children is the only thing which is worrying me," Judge Gray said. "I am not just satisfied concerning Mrs. Wilson's associcates, although the small children are generally better off with the mother."

Death Calls Helen Beebe

Helen Elizabeth Beebe, nine year old daughter of Mr. and Mrs. Oscar O. Beebe, 3237 Alvamarie street, El Cerrito, died at her home yesterday.

She was a native of Richmond and in addition to her parents, is survived by three sisters, Beatrice, 11, Mary Ida, 3 and Wilma, 1½ years.

Funeral arrangements are now pending in the hands of Wilson and Kratzer.

Encampment Names Heads

J. H. Locke was last night elected chief patriarch of the C. C. Encampment of Odd Fellows at an election of officers held in the Odd Fellows hall. Other officers elected were Robert Wendler, high priest; Ellis Skow, senior warden and Irving Nelson, junior warden.

Following the election, a banquet was served by J. E. Turner, Irving Nelson, S. P. Skow J. C. Hitchcock and Clarence Harvey.

Butcher Guilty Of Slaying Pair

LOS ANGELES, June 13.—UP—Friday the 13th cast a black shadow over Augustus Gingell, 35, meat cutter today, when he appeared in court and was sentenced to be hanged for the murder of his wife, Vera Gingell, and her asserted sweetheart.

Gingell was convicted of going to his wife's apartment and slaying her and a musician, Sigrud Bjorneby.

Date of the execution was not set.

JACK SHARKEY JEERED BY 'CHAMP'

By FRANK GETTY
United Press Sports Editor

NEW YORK, June 13.—UP—"I think his heart grew small in the fourth round."

Thus spoke Max Schmeling today, sounding the opening note of a swelling chorus of ballyhoo designed to create the impression that the young German is a worthy world's champion.

Jack Sharkey, the man he belittled, the man who outfought him before the foul blow, could only reply:

Fight Again

"I'll fight him anywhere any time and give the returns to charity."

But Maxie, the heavyweight champion of the world by virtue of that one unfortunate left punch, has no intention of fighting Sharkey or anyone else for a long, long time.

While the world of boxing debates the advisibility of recognizing Schmeling as a real champion, the fortunate youth from the Rhineland is about town, showing his white-toothed grin and preparing to cash in on the title and all it implies.

In addition to pocketing $178,000 his share of the proceeds of the "charity" bout in Yankee staduim last night, Schmeling is keeping two prominent ears wide open for all motion picture and vaudeville offers. He will not return to Germany until fall.

Jeer Sharkey

Meanwhile, in view of the fact that Sharkey was winning all the way until that one low punch dropped Schmeling in agony and brought the contest to such an unsatisfactory conclusion, there must be built up the myth that Maxie, after all, was the better man and is a real champion.

In view of the overwhelming evidence to the contrary presented in the ring before 79,222 pairs of eyes last night, you wouldn't believe it possible, but it can be done. Already Maxie and his supporters are spreading the suspicion that Jack Sharkey had shot his bolt and that the German would have gone on to win.

"Sharkey hit me with everything he had in the third round. I showed I could take it. I was not hurt. I refused the smelling salts. I was taking my time," Schmeling told the United Press.

Took Everything

"When Jack came out for the fourth round, I was amazed to see how slow he was. He knew he could not hurt me.

"I think his heart grew small."

Schmeling showed no ill-effects from the low blow which ended last night's fight and brought him the title. He said he still felt it when bending his legs to sit down.

There is considerable agitation in favor of refusing Schmeling recognition as champion. William Muldoon, veteran boxing commissioner, would leave Maxie's name from the "Tunney-Muldoon trophy". Others would withhold the belt emblematic of the heavyweight championship, offered by "The Ring" a boxing magazine. The New York State Athletic Commission and the Tunney-Muldoon trophy committee will meet next week to consider the matter.

Opinion Awaited

They are waiting to see which way the winds of public opinion will blow, these gentlemen who are so pleased with their own importance in fistic affairs. For that reason, it is important to the Schmeling crod, wily little Joe Jacobs and the rest, to create as quickly as possible the myth that Maxie probably was really winning last night's fight, after all.

In my opinion, Schmeling not only was not winning, even in the sense that he was fighting a wise and waiting fight, but he would have been knocked out within a few more rounds by a vastly better fighter.

One can make no excuse for Sharkey's striking that low blow, except to say that it was accidental. The motion pictures show that clearly enough. But one need not withhold from the Bostonian the tribute that he fought one of his truly great fights last night, up until the moment when the fateful blow was loosed.

Sharkey Home

Sharkey, overcome by his defeat, slipped away to his Boston home early today. Having added to his considerable fortune the sum of $178,000, it would not be surprising if Jack retired from the game.

Johnny Buckley and Jack Conway, Sharkey's manager, declared tonight, however, that the Bostonian would go on fighting for five more years.

"He'll be champion yet," they chorused. But the fistic fates seem to have other designs for the enigma named Jack Sharkey.

Worlds Biggest Race

THE TWENTY-THIRD relay race between Potsdam and Berlin, the biggest race of its kind, took place in Berlin. Five thousand runners of both sexes took part.

LOCAL NETMEN WIN DOUBLE MATCH

In one of the greatest upsets of the California State tennis tournament, Phil Carlin and Jimmy Hurley of Richmond yesterday defeated Richard Blaskower and Chas. Hunt in the semi-final double matches played at the Berkeley tennis club.

Blaskower and Hunt were seeded doubles team No. 2 in the tourney for boys under 18 years of age, and the triumph of the Richmond netmen was one of the unlooked for event of the day. The losers were considered "sure" winners, by virtue of their combined tennis abilities, having played as the California Tennis club team No. 1 in the inter-club matches.

Carlin and Hurley defeated their opponents by scores of 6-3, 3-6, and 6-4. Each of the three games was hard fought however, and the local netmen were taxed to their greatest efforts to come out on top.

By virtue of their win yesterday Carlin and Hurley will play in the finals at the Berkeley Tennis club Sunday. Their opponents will be the winners of the Cosgrove and Trainor versus Stewart and Graham match, which will be played today.

The final matches Sunday will be for the state championship of boys under 18, and will be decided by three out of five sets.

Oaks Rally To Beat Senators

SACRAMENTO, June 13.—UP—A ninth inning rally in which two runs were scored gave Oakland a 6 to 5 victory over the league leading Sacramento Senators here tonight and evened the series, two to two.

Sacramento had forged ahead with four runs in the last of the seventh inning, helped by Ray Rowhers' home run.

Daughter Sues Father For $9000

PEORIA, Ill.—Because she was forced to give up her profession as a school teacher to keep house for her father and some brothers and sisters, Melissa Sheen, 47, recently sued her father, Jeremiah Sheen, 69, retired farmer of Monicello for $9000 as wages as housekeeper for a period of 29 years.

Guild Presents Ancient Play

SHREVEPORT, La.—When the Little Theater Guild here wanted to do something different, its members produced the old time melodrama, "Ten Nights in a Bar Room". The early manner of presentation was carried out through the entire production, even to specialties between acts.

Buy gloves with what it saves

It isn't necessary to pay 50¢ or more to get quality in a dentifrice. Listerine Tooth Paste, made by the makers of Listerine, comes to you in a large tube at 25¢. Note how it cleans, beautifies and protects your teeth. Moreover it saves you approximately $3 a year over 50¢ dentifrices. Buy things you need with that saving—gloves are merely a suggestion. Lambert Pharmacal Co.

LISTERINE TOOTH PASTE 25c

A FLYING boat swoops down at a quiet lake in Minnesota and fishermen get out of the plane into a canoe which is strapped to it.

Los Angeles Beats Seals; Missions Win

SAN FRANCISCO, June 13.—UP—Los Angeles regained second place of the Pacific Coast league by beating the San Francisco Seals 6 to 2, today.

The victory gave the Angels a percentage of .561 and the Seals' figure dropped to .559.

The San Francisco Missions, pounded out three homers in the third inning and two in the fifth.

Ortman was on the mound for Portland and held the Seattle Indians to eight scattered hits to give the Beavers a 5 to 1 victory.

Frankie Klick Wins S F Bout

SAN FRANCISCO, June 13.—UP—Outclassing his opponent from the start, Frankie Klick, 126, San Fracisco, technically knocked out Eddie Graham, 129, Seattle, in the fifth round of a scheduled ten round main event here tonight.

Other results:

Young Johnny Burns technically knocked out Paul Drake, 6; C. Hernandes decisioned Eddie Fox, 6; Joe Noto knocked out San Petisci, 2; Bud Henry decisioned Bobby Mars, 4; and Charlie Cassassa knocked out Jack Smith, 4.

Braves Beat Cardinals In Second Game

BOSTON, Mass., June 13.—UP—The Boston Braves came from behind today to take the second game with the St Louis Cardinals 9 to 8 in ten innings.

The winning run counted on singles by Welsh and Maranville and Bottomleys' late throw to the plate on Neun's infield roller.

The Cards piled up an early lead of seven runs in the first two innings and knocked Zachery and Cunningham out of the box.

The Braves kept picking away at Willie Sherdel until they tied it in the eighth at 7-all, and tied it again in the ninth.

Legion Ball Loop Title Of County At Stake

The schedule to decide the American Legion Junior baseball championship of Contra Costa county, which includes ten teams of the county, has been drawn up, according to the committee in charge. The title will be decided in a series to be played off July 12, 13 and 14.

The ten teams represented are: Richmond, Crockett, Walnut Creek Danville, Martinez, Concord Bay Point, Pittsburg, Antioch and Brentwood. The county has been divided into four divisions known as north, south, east and west. Richmond and Crockett are included in the north division; Martinez, Concord and Bay Point make up the east division; Walnut Creek and Danville compose the west division, and Pittsburg Antioch and Brentwood make up the South division.

Richmond's first game will be played on June 21 when Crockett will make its bid for honors. A return game will be played at Crockett, June 28.

Beginning June 29, a series of games will be played off with the winners of the north and east divisions meeting on July 5 and 6. The west and south divisions will also meet on those dates.

The big series for the county championship will be played between the north-east team and the south-west team on July 12, 13 and 14.

ALL STANDARDS DEFEATED BY REFINERY

An open gate cost the All Standards baseball team an 8 to 4 defeat yesterday afternoon at the First street field.

And, as a result, one can readily see that from now on the members of the team will see that the gate is closed during the game.

It all happened thusly:

Good Crowd

The All Standards and the Refinery nines were playing before a large crowd at the First street ball park.

Starting in the first inning the All Standards nicked Frank Wolfram for three runs. Bunny Much doubled; Cullers walked; Didier trippled and Leer doubled to score the three runs.

In the second inning Armentrout, first man up for the Refinery was walked. Deardoff singled, sending Army to second. Then Wickesser fumbled Lamarra's drive and Armentrout pranced home.

And then came the fatal sixth inning and also the open gate—and also an All Standard trouncing.

Standards Lead

The All Standards were leading by a score of three to one. Murphy was pitching steady ball and the situation seemed well in hand or something.

Bertoli was the first man up. Murphy started to get wild and fed him four high ones. Arfentrout followed Bertoli and Murphy got even more wilder, resulting in a walk for Armentrout. Then Deardoff singled to fill the bases.

Chick Autry came up, spit on his hands, and got hit by the pitcher, forcing in Bertoli.

Ring the bell once.

Wolfram Walked

Wolfram then selected a war club with care—but he didn't use it. He was walked and Armentrout was forced in. Ring the bell again.

About this time Didier walked in from right field and exchanged places with Murphy.

Lamarra came up and singled and Dearoff scored. Ring the bell again.

Home Run

The bases are loaded, no one is out.

Up comes Bartram who takes a healthy cut at the ball. He hit it—a single.

Wait a minute—it's a home run! The boy who shaggs the balls hit over the fence forgot to close the gate and the ball rolled out—for a home run.

And then the squawk started. Round and round went the boys, the All Standards declared that it was not a home run and the Refinery boys insisted that it was.

Muth Homes

Spike Elder settled the whole affair by ruling it was a home run.

So that was that.

In their part of the sixth inning, Muth homed for the All Standards.

Gets License

MISS SAUERMANN, of Berlin, the first German woman who has ever received a jockey's license, permitting her to ride in competition with male jockeys.

INDIANS TAKE AMERICAN LEAD

By UNITED PRESS

NATIONAL LEAGUE—

Brooklyn lost a game in the National league pennant race Friday when the Robins won from the Phillies, 7 to 5.

After winning six straight games for Brooklyn this season, Adolfo Luque, veteran Cuban pitcher, had his unbeaten string broken by his former teammates. The Reds scored five runs off Luque after two were out in the first inning. Cuccinello's home run accounted for three runs.

Successive home runs by Gabby Hartnett in the eighth and ninth innings accounted for three runs and the Cubs beat the Phillies and moved within 3 1-2 games of the top.

The New York Giants defeated Pittsburgh, 7 to 2, Bill Walker winning his eighth victory of the season.

Jim Bottomley's late throw to the plate on Nevins slow roller in the tenth inning enabled the Boston Braves to score the winning run and beat the St. Louis Cardinals, 9 to 8.

AMERICAN LEAGUE—

Cleveland replaced Philadelphia at the top of the American league Friday by defeating the Athletics, 15 to 2, and annexing their seventh straight victory.

The Indians pounded Rube Walberg out of the box and continued their attack against Ed Rommel, making a total of 15 hits. Wesley Ferrell won his tenth game of the season, keeping the Athletics' seven hits scattered.

Washington beat the Chicago White Sox, 6 to 2 and remained only half a game behind the Indians.

Sam Byrd's homer with two on base in the sixth inning gave the New York Yankees a 10 to 9 victory over Detroit. Babe Ruth threw out Rensa at the plate when he tried to score the tying run from second on Funk's single.

The St. Louis Browns defeated the Boston Red Sox, 1 to 0 in eleven innings. Rip Collins held the Red Sox to four hits, outpitching Milton Gaston who allowed seven.

Odd Fellows To Play Rodeo Nine

The Odd Fellows' baseball squad, in quest of its fifteenth straight victory will journey to Rodeo tomorrow to engage that town's team at 2:30 in the afternoon. Orr and Rosano will form the battery for the local squad.

FIREMEN NINE BEAT LOCAL BANKERS

In a game fraught with runs, countless hits, innumerable errors, the Firemen baseball squad pounded out a victory over the Mechanics Bank nine in a Richmond Twilight league game at the high school diamond last night.

The final score, tabulated without the aid of an adding machine, was, Firemen, 14, Mechanics Bank 13.

The Firemen started the ball rolling in the first inning and reaped a harvest of three runs. Not content with this meager score, they pounded the horsehide in the second inning to the tune of five more runs.

The Mechanic Bank aggregation staged a rally in the third gathering in six runs, and when the firemen added to their rapidly growing score by four runs in the fourth, came back with five tallies in their half of the inning.

In the fifth inning, the Firemen added two more runs to their total and called it a day, so far as scoring was concerned.

The Bankers, in a frenzied attempt to win the game, scored two more runs in the sixth inning, but were unable to push any more across the plate, and the game ended with the Firemen leading by one run.

Baseball Nine Planned By M. W. A. Camp

The newly formed baseball nine of the Richmond Camp, Modern Woodmen of America, was the subject of considerable discussion at a meeting of the camp in Redmen hall last night.

It was announced that the team has been completely organized and would play its first practice game against the Native Sons tomorrow at the First Street park the game to start at 9:30.

A week from tomorrow, the bay camp league will be organized and it is the intentions of the managers to enter the Richmond squad in the tournament.

Lincoln School Playgrounds To Remain Open

According to an announcement yesterday by Maj. Ivan Hill, Richmond city recreational director, the Lincoln school playground will be kept open during the summer months between 9 a. m and 5 p. m, with the exceptions of Wednesdays and Thursdays.

John Palmer is in charge of the playground and is planning to carry out a series of junior baseball games and other athletic activities.

The playground is to be closed Wednesdays and Thursdays to allow for the children's day at the Richmond Natatorium. John Palmer will also be at the pool to instruct the children in first aid and swimming.

Society NOTES

MISS WHITING WILL MARRY ON JULY 12

The announcement of the approaching marriage of Miss Bernice Whiting, local high school art instructor, to Robert James of San Francisco has recently been received by her many friends here.

The wedding will take place in the First Baptist church of Berkeley on July 12.

Miss Whiting, who is the daughter of Mr. and Mrs. Samuel Whiting of Grass Valley was graduated from the University of California with the class of '26. She was a member of the Newegeta Sorority. Miss Whiting has been a member of the high school faculty for two years and will remain for another year.

James, the son of Thomas James of Salt Lake City was graduated from the University of California with the class of '27. He was a member of the Acacia fraternity, of the Scabbard and Blade honor society and of the U. C. Masonic club. James is now established in the advertising business in San Francisco.

The couple will reside in Richmond.

Druids To Go To Convention

Headed by Charles Ceridono, five delegates of the Point Richmond Grove of Druids will leave this morning for the state convention which meets in Burbank next week. Ceridono is slated for the highest office of the order, that of Grand Noble Arch of the Grand Grove of California. Others leaving this morning are Charles Rainoldi, A. Matteri, Ben Farina and Peter Noe. Mrs. Ceridono will officially represent the Point Druid Circle, accompanying her husband to the conclave.

Mrs. Harry Arnold Will Return Today

Mrs. Harry Arnold and son of San Pablo will return tomorrow from Half Moon bay where they have been visiting for the past week with Mrs. Arnold's mother.

What's Doing Here Today

P. S. LODGE GIVES PROGRAM FOR FLAG DAY

In observation of Flag Day, a patriotic program was presented at a meeting of C. C. Temple of Pythian Sisters in the Brotherhood hall last night.

The program was opened with a march and the presentation of the flag. A reading, "Our Flag" was given by Mrs. Ruth Klick; a song was given by the Women's chorus, all attired in red, white and blue gowns; a letter from the supreme chief, "What the Flag Means to the Pythian Sisters" was read; a conversation between a father and son, "Respect to the Flag" was read, and the program was ended with the playing of the Star Spangled Banner by Mrs. Lucille Deathe.

Refreshments were served in the banquet room which was decorated with flags and red, white and blue flowers, at the close of the meeting.

During the meeting, the temple accepted an invitation from the Live Oak temple in Berkeley, to depict the floor work at an initiation June 19.

MISS PAWLAS PAID HONOR AT SHOWER

In honor of the approaching marriage of Miss Dorothy Pawlas to Bradford Leroy Stevenson ,a bridge shower was given recently by Miss Esther Poulsen at the home of her aunt, Mrs. E. C. Lane on Key boulevard. Miss Poulsen was assisted by Mrs. Lane and Mrs. Clara Lane.

Many attractive kitchen gifts were presented to Miss Pawlas.

Winners of bridge prizes were: Miss Hazel Rasmussen and Miss Muriel Hunt.

Bride favors and pink flowers decorated the attractive supper table.

Those participating in the shower were: besides Miss Pawlas, Muriel Hunt, Margaret Hunt, Hazel Rasmussen, Dorothy LeGault, Maurine Arrington, Mary Fenix, Katherine Snodgrass, Hilda Hayes and Miss Poulsen.

The wedding of the couple is set for Sunday, June 15.

I. McGuffins To Visit North

Leaving today on a west coast tour are Mr. and Mrs. I. McGuffin of 724 Barrett avenue. Their first stop will be made at Ukiah where they will spend the weekend with relatives. They plan to include the Oregon Caves, Corvallis, Salem and Portland in their sight-seeing tour. Visits will be made with friends and relatives en route.

A stop will be made in Salem, where on June 21, the marriage of Mrs. McGuffin's son, Arlo Davis to Miss Ethel Jones of that city will take place.

To complete the trip the McGuffins will motor up the Columbia river highway, over Hood river loop and return to California by way of Crater Lake, Klamath Falls and Bonanza, McGuffin's boyhood home.

After a visit with relatives in Chico California, the McGuffin's will return home around June 30.

W. K. Damons Return To City

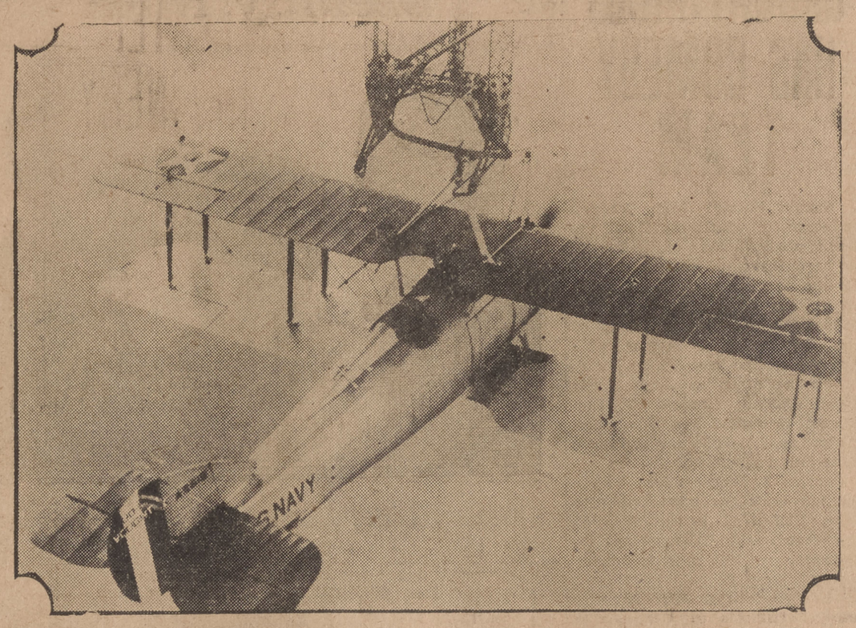
Mr. and Mrs. W. K. Damon and son Nathaniel, returned recently from a southern trip where they visited their daughters, Mrs. Frank Tittemore of Los Angeles and Mrs. Merrill Cushing of San Diego.

Walter K. Damon of Long Beach also entertained his parents.

A visit was made to Catalina and the family included Agua Caliente in their tour.

Miss Clara Damon will remain in the south for a month's visit with her sisters.

Hooking A Ride



BY USE of a hook suspended from the Navy Dirigible Los Angeles, a military biplane in full flight can now attach itself to the giant airship to refuel. Release a lever and the plane soars away.

AUXILIARY TO EAGLES SEATS NEW HEADS

Installation of officers was held by the Auxiliary to the Point Richmond Aerie of Eagles last night at Woodmen hall.

Officers seated were:

Mrs. Virginia Smith, past president; Louise Deboli, president; Clare Barry, vice-president; Victoria Marchesi, chaplain; Marie Pionelli, recording secretary; Etta Lite, treasurer; Caroline Cabattera, outside sentinel; Mrs. C. Mallina, inside sentinel; Mrs Viola McChristian, Mrs. L. Feudner, and Mrs. C. Adealina, trustees, and Mrs. F. Roveda, conductress.

The past president was presented with a jewel and a shower bouquet. Officers received corsages.

At the conclusion of the ceremonies a banquet was held, with Mrs. M. Teeling and Mrs. H. Keanan, assisted by an able committee in charge.

ACANTHA GROUP ENTERTAINS AT PROGRAM HERE

Star Point's night was observed by Acantha Chapter, Order of Eastern Star last night at ceremonies in Masonic hall. The event which was presided over by Worthy Patron and Worthy Matron, Mr. and Mrs. Ed Kelly, was ataended by a record crowd.

During the evening a program was presented. Piano solos were played by Miss Christine Sonke; Miss Leslie Willard gave an impersonation; John Toffoli played the accordion and a chorus of "Marthas" sang.

A gift was presented to the Worthy Matron. During the presentation the Star Points sang.

A banquet followed the meeting.

Miss Hartnett To Visit Europe

Miss Clara Hartnett who left recently for New York will sail on the Aquitania for Europe on June 18. While in the eastern city Miss Hartnett will be joined by Miss Agnes Weatherstone and together they will make a two month's tour of nine European countries.

Mrs. Clarence Ramey of 3723 Cerrito avenue and children will leave this morning for San Diego for a month's vacation. She will visit her sister of that city.

Harmony Court Meets Tonight

A meeting of Harmony Court, Order of Amaranth will be held tonight in Masonic hall. Mrs. Minnie Phillips, royal matron, will preside.

MRS. LANGDON COLLAPSES ON STAND

LOS ANGELES, June 13.—UP—Reaching a dramatic climax in her courtroom testimony late today, Mrs. Harry Langdon, wife of the comedian, collapsed today and the case was recessed until she was revived.

At the time Mrs. Langdon was telling the court how she had attempted to plead with her former husband, Thomas J. O'Brien, not to file a heart balm suit against Langdon. O'Brien is suing Langdon to collect $11,500 in notes, part payment of a sum the comedian gave him to refrain from the suit.

Mrs. Langdon repeatedly denied misconduct with Langdon while she was still married to O'Brien. She wept as she told the court how she believed at one time she was to become a mother and O'Brien intimated Langdon was responsible.

Mrs. Langdon admitted she went automobile riding with the comedian but said she always took her own child and an adopted child along.

"How could Mr. O'Brien suspect anything wrong under those circumstances?" she asked.

Langdon's attorney said the defense will attempt to prove that Langdon gave O'Brien $15,000 and $11,500 in notes if the latter returned one of his wifes' children.

Mrs. Langdon often was in tears as she related intimate details of her life with O'Brien and her meeting with Langdon.

Mrs. Langdon denied emphatically that O'Brien found her and the comedian in a bedroom of her home at 1:30 a. m. the morning before she was to be divorced.

"Langdon came to see me between 9:30 and 10 o'clock to see whether a bump on my nose would prevent me from working in his picture next day," she testified. "He came in the rear door because guests were in the parlor. He was in the kitchen all of the time."

Farmers Urged To Keep "Cow" Books

FARG, N. D.—Urging Northwest farmers to "keep books" on their cows E. J Haslerud extension dairyman of the North Dakota Agricultural college said today that this would enable them to prevent losses from low production animals.

METZ FAMILY TO VISIT IN NORTHWEST

Mr. and Mrs. William Metz, and family left yesterday on an extended auto tour through the north west. They are accompanied by their daughter and her husband, Mr. and Mrs. W. L. McLellan and another daughter, Alice Wilma Metz.

Vancouver will be the object of their trips as they have many friends in that city. Metz is now connected with the real estate firm of Plate Vaughn and Metz but was formerly in business in Vancouver.

J. M. Headys Have Guest

Mrs. Harry Cunday of Fresno is house guest this week of Mr. and Mrs. J. M. Heady of 1210 Bissell avenue. Mrs. Cunday will visit for several days.

Fireman Dies In Blaze At Washington

WASHINGTON, June 13.—UP—One fireman was injured fatally and seven others were hurt in fighting a fire which menaced for a few minutes tonight an entire business block of downtown Washington two blocks from the White House.

Deputy Chief P. R. Davis, one of four firemen injured, when a ladder collapsed, died at a local hospital from his injuries.

Seven or possibly more firemen were overcome by smoke in fighting flames which broke out in the Rudolph and West Hardware and Paint store and spread into the adjoining Hugh Reilly Paint store and the roof of the National Electric and Supply company.

The fire was reported under control after a half hour.

A smoke pall from paints and roofing over-spread part of the city and forced evacuation of restaurants and the Union Bus station.

Damage was believed to be many thousands of dollars and both buildings effected contained heavy stocks of goods.

NUI CLUB ENTERTAINED WITH MEETING

A meeting of the Nui club was held yesterday at the home of Mrs. Rose Ellis on 543 Sixth street.

After the business discussion refreshments were served by the hostess.

The next club meeting is to be held at the home of Mrs. Amelia Spires on Pennsylvania avenue.

Mrs. I. L. Bethers Leaves for Kansas

Mrs. I. L. Bethers of San Pablo left Thursday for Kansas City Mo. where she will pay an extended visit to her son and daughter. She expects to return some time in the fall.

Leo Wuesthoff To Return Home

Leo Wuesthoff, student of the University of Wyoming is expected home soon from Laramie. Mr. and Mrs. Herbert Wuesthoff, also students at the northern University have preceded their brother home.

CLUBWOMEN CONVENTION ENDS

DENVER, Colo. June 13.—UP—Delegates to the general federation of Women's clubs brought their 20th biennial convention to a close tonight with observance of "general federation president's night.

The program was in honor of Mrs. John F. Sippel, of Baltimore, Mr., who was elected by the delegates to head the general federation for another two years. Musical numbers and short addresses comprised the program.

Odds and ends of unfinished business were disposed of at the morning session of the convention before it heard the presidential address of Mrs. Sippel. In the afternoon final departmental reports were heard.

Mrs. Sippel, in her presidential address, called on individual club women to feel their sense of responsibility for the broad general program of the Federation.

Without such a feeling on the part of individual members and individual clubs, the Federation's contribution of service to the nation will fall short of its full measure, she said

She asked the club women to aid in working toward the improvement of motion pictures and radio programs and in the solution of prison problems.

A resolution adopted today by the convention asked all state Federations to aid in constructive programs for the improvement of prison conditions.

'CAUGHT SHORT' HAS COMEDY TEAM

"Caught Short," Eddie Cantor's collection of witticisms anent the recent stock market crash is said to have furnished the inspiration for the new Metro Goldwyn Mayer all talking comedy of the same title which will open tomorrow at the Fox-California theater with Marie Dressler and Polly Moran in co-starring roles and Anita Page, Charles Morton, T. Roy Barnes, Edward Dillon, Alice Moe, Gwen Lee, Lee Kohlmar and Greta Granstedt supporting.

Charles F. Riesner, best known for his work in connection with "The Hollywood Revue" directed the comedy with Willard Mack responsible for dialogue and continuity.

Miss Moran and Miss Dressler have the roles of New York City landladies to whom the lure of stock speculation brings first unexpected profit and subsequently disaster when the inevitable Wall Street catastrophe occurs. The metamorphosis of the two ladies from their Washington Square habits of cooking and housecleaning to a period of suddenly acquired luxury in a fashionable Atlantic City hostelry makes up what is reported to be their outstanding co-starring vehicle surpassing by far such previous silent efforts as "The Callahans and the Murphys" and "Bringing Up Father."

Also on the program is a talking comedy entitled "His Honor The Mayor."

Scout Camp Will Open On Monday

In the two weeks between June 16 and June 29, approximately 100 Contra Costa Scouts will be in camp and 75 or more are expected to register for the next two weeks.

The new swimming pool has been completed in the camp, which is located above Sonora and is now being filled with water. County Executive J. R. Warne, who will be in charge of the camp, announced that special attention will be given to swimming, camping, hiking and merit badge work in nature studies. He will be assisted by Field Executive Robert Cox and Scoutmasters of the county.

Scoutmaster McLellan, Watrous and Barnes, all Red Cross Life Saving experts will be in charge of the swimming at the camp.

Parents and friends of the scouts will be welcome to visit the camp on Sundays and specially on June 22 and July 6.

Dr. Hedley Will Speak At Wesley M. E. Tomorrow

Dr. O. J. Hedley professor of the Pacific School of Religion of Berkeley, will deliver an address at Wesley Methodist Episcopal church on Sunday evening at 7.45 o'clock. Dr. Hedley has recently returned from Palestine, where he with others of the Pacific School of Religion, was engaged in archaeological explorations. All other services at Wesley church have been cancelled on account of the sessions of the California Conference, which is being held in San Francisco, except the sessions of the church school, which will be held as usual at 9:45 a. m.

"MELODY MAN" IS STIRRING DRAMA

"The Melody Man," the Columbia all talking musical drama of the conflict of jazz and the classics which opens for today only at the Fox-California theater will prove to be an intensely dramatic screen offering.

Interest centers about Karl Von Kemper, enacted by John St. Polis, famous Viennese composer, who at the very peak of his career, just after he had played his masterpiece, "The Dream Rhapsody" at a royal concert, commits a crime that makes him an exile from his native land. Fifteen years later this tune betrays him and his crime.

William Collier Jr., as Al Tyler, a jazz band leader, and Alice Day as Von Kemper's daughter Elsa, take care of the love interest of the plot and contribute both drama and romance.

Further plot complication is introduced by the conflict of jazz and the classics. It is symbolized in the persons of Al Tyler and Von Kemper.

St. Polis carries his scenes effectively. Collier holds the sympathy of the audience throughout while Alice Day portrays her role with unusual charm. R. William Neill has directed an outstanding picture.

Also on the program is a talking comedy entitled 'Bulls and Bears."

Anniversary Of Mission To Be Celebrated Soon

Twenty thousand people from cities and towns in the San Francisco bay region are expected to attend the celebration of the 133rd anniversary of the founding of the mission San Juan Bautista at San Juan Sunday June 22.

The Mission play of San Juan Bautista, written by Grace Therese Mitchell, California authoress, around the life of Padre Tapis, "Music Master of the Mission," will be a feature of the production.

In the cast are students of the University of Santa Clara and townspeople, many of them descendants of the Dons whose characters they portray in the play. Edward Preston Murphy of the University of Santa Clara is the director of the play.

A barbecue for thousands under the olive and pear trees planted by the padres and a pageant of the past through the streets of San Juan and around the Mission will precede the play.

A committee of 100 citizens of San Juan under the leadership of Father Francis Caffrey, M. M., of the Maryknoll Fathers, and Superior of the Missions is making plans for the event.

Several hundred girls of San Juan and of the surrounding country will take parts of senoritas in the play. Stringed orchestras will play the scores of Padre Tapis from his original manuscripts found in the mission's archives.

Couple Gets Big Wedding Thrill

BEKESCSABA, Hungary—As revenge on a man who jilted her, Anna Ioerino, a Bekescsaba girl, hanged herself from the balcony of the church in which the unfaithful lover was being married to another girl. Her body and a note explaining her reasons for killing herself were discovered by the wedding guests as they left the church.

ACQUITTED AT RICHMOND THEATER

The Columbia all talking drama "Acquitted" which opens at the Richmond theater tonight is an engrossing drama of honor and sacrifice, a disclosure of New York's underworld tactics, with Lloyd Hughes, Margaret Livingston, Sam Hardy and a large supporting cast.

A girl dares all for the sake of the man she loves. Her belief in the man, who in the eyes of the world is guilty of the greatest crime and her courage and daring in combatting forces stronger than herself for his sake, will thrill you. The theme is of intense dramatic power, the dialogue is brilliant and the film as a whole is gripping in suspense. You will enjoy it.

The entire cast is excellent, the performances of Lloyd Hughes and Margaret Livingston are particularly good. The direction by Frank Strayer is smooth.

Motorists Told To Observe All Stop Signals

All motorists must come to a stop at boulevard stops.

That, in effect, is the order now being acted upon by state highway patrol officers and municipal police departments throughout the state. The law concerning boulevard stops is now being strictly enforced as part of the campaign this month of the California committee on Public Safety.

Each month the state-wide committee concentrates on one phase of traffic law violations, continuing the safety drive the year around. During the first part of each month efforts are directed to educating and advising motorists regarding the legal requirements on the specific subject for the month while enforcement of this law is carried on during the latter part of the month.

Newspapers, 24 radio stations broadcasting the safety message three times each week in addition to a series of five minute radio talks, hundreds of motion picture theaters displaying a series of traffic safety slogans, street car companies and other agencies cooperate in the educational campaign. The committee also prepares and issues monthly bulletins to 472 service clubs and other organizations in all parts of the state. Making the motoring public more 'traffic-minded" is the plan of the educational effort.

Electric railway companies and motor bus lines of the state cooperate by displaying window posters urging safer driving and walking and in some cases through bulletins issued to passengers. The slogan of this month's drive is "Stopping at Boulevard Stops Averts Crashes."

The motor vehicle law of the state requires motorists to bring their vehicles to a complete stop upon approaching any arterial or through street marked by signs.

Richmond Wife Charges Non Support

Justice of the Peace Arthur Alstrom yesterday issued a warrant for the arrest of Norman Byer, 2964 Third avenue, Sacramento, on a charge of failure to provide for his wife and minor children. The complaint was sworn out by Byer's wife, Mrs. Jane Byer of Richmond, who alleges she received a check from Byer, but which proved worthless when she tried to cash it.

MAJ. SEGRAVE KILLED IN CRASH

WINDERMERE, England, June 13. —UP —Major Sir Henry Segrave, fastest automobile driver in the world, and one of Britain's most famous sportsmen, set a new speed boat record today and gave his life attempting to exceed it. A mechanic died with him and another was injured.

"This boat is an absolute experiment and anything may happen," said the Baltimore-born speed king as he started tests of his new 4,000 horsepower "mystery" craft, Miss England II. On Lake Windermere.

He made two record test runs, averaging close to 100 miles an hour over a measured mile course. Then he swung his white-painted boat, which the British Air Ministry helped him build, back to the course again and the noise of its engines shattered the air.

Wife Watches

Hundreds of spectators, including Lady Segrave watched him breathlessly as the racer bore across the lake tossing up spume on both sides and churning the waters in the rear. It seemed to them that this was the best test trial of the day. Then, suddenly they gasped, as a tremendous cloud of spray enveloped the craft Miss England dived beneath the surface, the thunder of its motors ceased, and in an instant the boat reappeared, floating upside down with a huge hole in its bottom; then slowly it sank, the reason for the accident a mystery.

Segrave, thrown out by the crash, was pulled to the safety of a rescue boat. Though both his arms were broken and a fractured rib had punctured one lung, he asked if his companions were safe. Then he lapsed into coma and died nearly three hours later.

M. J. Willcocks, one of the mechanics, was pulled up with blood streaming from his face. One of his thighs was fractured and he waved to the rescuers to attend to Seagrave first.

Mechanic Missing

E. Halliwell, the other mechanic and a specialist for the Rolls-Royce engines installed in the boat, had been swallowed by the waves. His body was not recovered, despite hours of search.

As the only survivor, Willcocks tried to explain the crash to the newspapermen later, but could not.

"I haven't the slightest idea of what happened," he said. "The boat was right on top going on faster than ever before. All I know is that there was a sudden shower and the next thing I remember was finding myself lying in someone's boat and later in a bed ashore."

Sought Record

Segrave made today's tests in violation of the Friday 13th, superstition, in hopes of exceeding the previous speed boat record of 96.3 miles an hour made by Gar Wood in the Miss America X, last April. Later he expected to defeat Wood and recapture the British international trophy for Great Britain in races to be held in the Detroit river.

The official time of his first mile test was 96.41 miles an hour. For the second it was 101.11 miles an hour. Speed for the two tests averaged 98.76 miles an hour —faster than any man had skipped over water before. Still, he was not satisfied, and in the third and fatal attempt he was believed to have traveled at a speed well above 100 miles an hour.

His speed for the first two tests will be forwarded to the International Marine Yachting union for official recognition as a world record.

When the ship was set down in Lake Windermere several days ago, propeller after propeller broke, unable to withstand the terrific drive of the engines. A new propeller was installed today and Segrave, clad in white overalls and special "armor" including a heavy lifebelt, said he intended to use only three-quarters throttle in striving for a record. It is not known whether the blade broke and severed the hull, or whether the boat struck driftwood before capsizing.

Fisherman Who Slew Wardens Free On Bail

CROCKETT, June 13.—Anton J. Anderson, giant Crockett fisherman, who killed Alan A. Curry and Jack Burke, deputy game wardens in a gun battle April 30 today was back in his familiar haunts, following his freedom on bail of $10,000, while he is awaiting order for his hearing on charges of murder in San Mateo county.

The money to insure his freedom was raised by his fishermen friends at a meeting held here a few days ago.

Although murder is generally regarded a non-bailable charge, the California law allows exceptions and San Mateo county officials gave their sanction to Anderson's release.

The fisherman's left arm which was wounded in the affray, has not healed yet, and Anderson is unable to use it.

Anderson charges that the men opened fire on him after charging that he was in restricted territory. Anderson denies being in such a location and maintained he was within his rights.

Y BOYS GO ON HIKE AT CAMP

By JIMMIE SMITH

CAMP PIONEER, Russian River, June 13—Lying beneath the great mass of Squaw Rock, beside the rock strewn Russian River, the members of Camp Pioneer sang and made merry on this legendary haunted spot.

Squaw Rock is situated about two miles from camp. The boys started the two mile hike about 8 o'clock last night, and returned to camp after 10 o'clock. A camp fire was built on the sands near the rapids at Squaw Rock and yarns were spun and songs were sung beneath its black shadows.

Reynold Carlson told of the legend of Squaw Rock from which an Indian maiden is reputed to have leaped into the swirling rapids beneath. According to Carlson, several Indian villages were situated in the region of Camp Pioneer.

A tale of mountaineering was also told by E. George Harlow, while the members of Tent One, or "The Land of Sophisticated Nuts" presented a short skit entitled "Buried Booty." The boys who participated in the skit were Jack McKune, Blaire Spires, Paul Armstrong, Elmer Johnson, Fred Ball, Leonard Miller Walter Gillan and Harold Armstrong. The Daily Boomerang, camp publication, was also read at the camp fire by Edward Boquet.

Tent No. 2, "The Hug" and Tent No. 3, "The Asylum" yesterday tied for inspection honors.

The special classes in nature study, first aid and archery are progressing rapidly under the direction of Reynold Carlson, E. George Harlow and Bill Black. An exhibit of more than two dozen varieties of wild flowers found in this vicinity have been placed on display in the center of the camp by Mrs. Reynold Carlson.

The entire camp will traverse the five miles between camp and Hopland this afternoon to give battle to the Hapland grammar school nine. Although only a grammar school baseball team it is rumored that the majority of the athletes have already passed their sixteenth birthday.

On Trip

EAGLE SCOUT, Lloyd Hall of Richmond, is now touring the National Parks with the Ansel Hall Expedition.

Report Made On Vacation Bible School

Reports given at a meeting of the faculty of the Richmond Daily Vacation church school yesterday, indicated a total enrollment of 640 pupils and 60 teachers, Rev. H. A. Kern, dean of the school, presided.

East Side chapel jumped into first place, with a total of 105, part of whom are handled at the Grant school. Stege is in second place with 98, San Pablo third with 79. Other totals are: Wesley 60; Point Baptist 53; Mexican 45; Community Baptist 41 each.

The Colored Baptist school in San Pablo will start next Monday. On next Friday noon, the faculty will meet again for lunch at the Community church.

Having defeated the baseball teams of Stege and San Pablo, the Wesley church boys are in the lead of the league. The Mexican boys won from the San Pablo B team in other games.

SCOUT L. HALL ON TOUR OF PARKS

Lloyd Hall, lucky Eagle Scout of Troop 3, Richmond, who was selected to represent the Contra Costa Council of Boy Scouts on the Ansel Hall trip through the National Parks this week embarked on a trip that should appeal to the wildest dreams of every Boy Scout in the county.

The seven Eagle Scouts from the bay district will spend two and a half months exploring the least known sections of the national park system, camping out all the time, keeping in touch with the world by radio and moving from park to park in a motorized covered wagon.

Led by Captain Ansel Hall, chief forester and naturalist of the National Park service, and accompanied by R. E. Burton, Santa Cruz Scout leader and science teacher, who will supervise the tour, the Scouts left San Francisco on Monday June 2. Their first objective will be the Grand Canyon where they will search for fossil footprints on a ledge 1500 feet below the rif. Later they will visit Mesa Verda National Park, in search of cliff dwellings, Rocky Mountain park, Teton National park and Yellowstone National park.

The boys have a radio and will send out stories over the air, which will appear in the Hearst newspapers.

Besides Lloyd Hill, the follow-Scouts are in the party: Sterling Gorrill, Berkeley; Robert Veale, Alameda; Robert Usinger, Oakland; Boynton Kaider, Piedmont; Alger Fast, Santa Cruz and Robert Wind, Berkeley.

Larue Harrison Funeral Held

With Rev. K. B. Wallace delivering the eulogy, funeral services for the late R. Larue Harrison were conducted at the Wilson and Kratzer funeral chapel yesterday afternoon.

Harry Bonham, L. O. Spires, D. E. Bowman, E. C. Wilson, I. E. Santure and G. P. Warren served as pall bearers. Interment followed at the Sunset View cemetery.

Harrison died from injuries sustained in an automobile accident near Arbuckle last November. He has been under constant care by specialists, but despite blood transfusions and operations, did not recover.

Nomination Papers Filed By C. L. Dodge

MARTINEZ, June 13.—Seeking re-election, County Treasurer Charles L. Dodge today filed nominating papers.

Nomination Papers Filed By Stearns

MARTINEZ, June 13.—H. M. Stearns of Richmond, today secured papers to qualify as a candidate for the constableship at Richmond.

ORDINANCE NO. 657

REGULATING PLUMBING IN THE CITY OF RICHMOND, CREATING A BOARD OF PLUMBING EXAMINERS, PROVIDING FOR EXAMINATION, BONDING, LICENSING AND REGISTRATION OF MASTER PLUMBERS, AND REPEALING ORDINANCE NO. 364 AND AMENDMENTS THERETO AND ALL OTHER ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HEREWITH.

The Council of the City of Richmond do ordain as follows:

DEFINITIONS

Section 1. As used in this ordinance, the following words or terms shall have the meanings prescribed for them in this section:

"Plumbing Inspector" shall mean the duly appointed, qualified and acting plumbing inspector of the City of Richmond or his duly authorized representative.

"Person" shall include firms, corporations or copartnerships; the masculine shall include the feminine; and the singular shall include the plural.

"Plumbing" shall mean the work of installation, alteration or repair in buildings or structures or the premises thereabouts of pipes, vents, fixtures and fittings for using or conveying gas, water, wastes and sewage, including installation of drainage systems.

"Drainage System" shall mean the system of pipes and fittings within and without a building composing the complete installation of soil, waste, vent, leader and sewer pipes of such building, including the connection with street sewer or septic tank.

"Building" shall mean an architectural structure covered by one roof and with enclosing walls.

"Building Courts" shall mean an arrangement of dwellings constructed on a parcel of land having only one street frontage and the access to which is gained through a common entrance way.

"Soil Pipe" shall mean any pipe which conveys the discharge of water closets or other fixtures served by traps three (3) inches in size or larger.

"Waste Pipe" shall mean any pipe which conveys the discharge of any fixtures served by traps two (2) inches in size or smaller.

"House Drain" shall mean that part of the horizontal piping of a house drainage system beneath the level of the first floor, which receives the discharge of soil waste and other drainage lines within the walls of any building.

"Vent Pipe" shall mean a pipe proceeding from a fixture opening in a drainage system provided for the purpose of ventilating said system and to prevent syphonage and back pressure.

"Main Vent" shall mean a pipe proceeding from a fixture opening and terminating at the roof.

"Branch Vents" shall mean single or combined vents which terminate in a main vent.

"Return Vents" shall mean inverted emergency vents which are carried back to a point of connection with the horizontal run of waste from fixture served.

"Trap" shall mean a fitting so constructed as to prevent the passage of air or gas through a waste or soil pipe into a room where a plumbing fixture is located.

"Leaders" shall mean pipes which carry off storm wastes from roof to house drain, house sewer, yard or street.

"Plumbing Fixtures" shall mean water closets, basins, baths, sinks, wash trays, urinals, drinking fountains, dental wastes, showers, ice refrigerators, and light well, deck, surface, cellar, floor and sump drains, or any other devices which are required to be connected with a drainage system.

"Small Fixtures" shall mean any fixture served by a trap two (2) inches in size or smaller.

"Batteries of Fixtures" shall mean a permissable arrangement of waste or soil piping and fixtures where such fixtures are designed to be set along the same wall line, or along a common wall and in adjacent rooms, whereby it will not be required to separately vent each trap.

"Vertical Pipe" shall mean any line of pipe rising from a level at an angle the same as, or greater than, that developed by the use of 60°, 1/6 bends or like fittings. Heights of vertical lines of pipe shall be computed by a line projected perpendicularly from the point of connection with the house drain or house sewer to any required level.

"Horizontal Pipe" shall mean any line of pipe rising from a level at an angle less than that developed by the use of 60° or 1/6 bends or like fittings.

"Soil or waste stack" shall mean a line of pipes consisting of soil or waste and vent pipes extending from the house drain to roof and serving fixtures on more than one floor.

"House sewer" shall mean the horizontal piping of a drainage system beginning five (5) feet from foundation wall of building and ending at its connection with the street sewer or septic tank.

"Septic tank" shall mean a watertight compartment into which raw sewage is discharged in order that the more solid materials may be liquefied, largely deodorized and rendered less dangerous, preparatory to final dispositica.

"House gas piping" shall mean any run of gas piping or fittings installed in any premises or in any building beginning within thirty (30) inches of the meter location and ending at the capped or plugged outlets ready to connect with the gas fixtures, gas appliances and gas meter, but does not include the connection of the gas fixtures, gas appliances or gas meters or any portion of the gas service piping from street main.

"Rough inspection" shall mean the inspection of the workmanship and the materials used in the plumbing work of a building, made before any piping is concealed and before such piping is put into use through the connection of any fixtures.

"Final inspection" shall mean the inspection of the plumbing work of a building, made after all plumbing fixtures have been set and connected and after all gas and water piping has been completed.

"Master plumber" shall mean a person himself, or in the case of a firm or corporation then a bona fide executive or managing officer of the firm or corporation, who is skilled in planning, superintending and practical installing of plumbing, as laid down in this ordinance, and who shall have successfully passed the required examination and obtained a license as a master plumber, and who shall have a regular place of business as such master plumber.

"Journeyman plumber" shall mean one who is skilled in the trade or work of plumbing and labors as such mechanic under the direct supervision and under the employ of a master plumber. A journeyman plumber shall not be required to be licensed.

"Apprentice plumber" shall mean one who is a learner or beginner and who is working with a master plumber or a journeyman plumber to perfect himself in the trade of plumbing. An apprentice plumber shall not be required to be licensed.. Not more than one apprentice plumber shall work with a master plumber or a journeyman plumber at any one time.

QUALIFICATION OF MASTER PLUMBERS

Section 2. Except as herein otherwise provided, it shall be unlawful for any person to do any plumbing work in the City of Richmond without first pasing the examination and filing the bond herein required, and obtaining from the tax collector of the City of Richmond a license authorizing him to carry on the business of master plumber.

BOARD OF PLUMBING EXAMINERS

Section 3. A board of plumbing examiners is hereby created, to consist of the commissioner of health of the City of Richmond, the plumbing inspector, and one master plumber to be chosen by them.

Section 4. It shall be the duty of the board of plumbing examiners to examine each person who desires to engage in the business of master plumber in the City of Richmond upon his qualifications and ability to conduct such business, and to certify to the plumbing inspector the name of each applicant who shall successfully pass such examination.

Section 5. The board of plumbing examiners shall meet on the second Wednesday of each month at the office of the plumbing inspector for the purpose of holding examinations and for the transaction of such other business as may come before it, and at such other times and places as may be deemed necessary by a majority of the board.

Section 6. Should an applicant fail to pass the examination given by the board he shall not be eligible to take such examination again within a period of six months. An unsuccessful applicant wishing to take the examination again shall make a new application.

Section 7. Application for examination may be made by any person over 21 years of age, shall be made in writing on a blank furnished by the plumbing inspector, and shall be filed with the plumbing inspector, who shall act as secretary of the board of plumbing examiners.

BOND

Section 8. After certification to the plumbing inspector by the board of plumbing examiners that an applicant has passed the required examination, and before a master plumber's license may be issued by the tax collector hereunder, the applicant shall file with the city clerk a bond in the sum of $300 in favor of the City of Richmond approved by the city attorney and city manager, conditioned for the faithful performance of all plumbing work done in the City of Richmond by him or his agents, employees or others working under his supervision or control, in full compliance with the requirements of this ordinance.

LICENSE

Section 9. Upon filing the bond herein required and upon presentation to the tax collector of a certificate from the plumbing inspector that applicant has passed the required examination, a master plumber's license shall be issued by the tax collector to said applicant upon payment of the license tax therefor, which shall be the sum of $100 per fiscal year, payable annually in advance; provided that those beginning business as master plumber in the City of Richmond during the first quarter of the fiscal year shall pay the full amount of said license tax, those beginning business during the second quarter of the fiscal year shall pay 75 per cent of said license tax, those beginning business during the third quarter of the fiscal year shall pay 50 per cent of said license tax, and those beginning business during the fourth quarter of the fiscal year shall pay 25 per cent of said license tax; and provided further that no master plumber's license shall be issued for any other period of time than the period expiring on the 30th day of June following the date of issuance thereof. No person who, at the time of the passage of this ordinance, is licensed as a master plumber in the City of Richmond and who has paid all permit and inspection fees for the current year, will be required to be examined as required by this ordinance, such license and the payment of said fees being sufficient evidence of previous examination.

RENEWAL OF LICENSE

Section 10. No license shall be renewed by any master plumber continuing in business as such in the City of Richmond from year to year unless application for such renewal shall have been made on or before July 31 of each year hereafter, except upon examination of the applicant in the same manner hereinabove provided for the issuance of an original license; and in case of a master plumber so continuing in business in the City of Richmond who so fails to obtain his license as herein required on or before July 31 of any year, the amount of his license tax therefor is hereby declared to be delinquent, and there shall be added and collected in such case a penalty of 25 per cent of said license tax upon issuance of such license.

TAX AND FEES NOT RETURNABLE

Section 11. No license tax nor permit or inspection fee paid under the provisions of this ordinance shall be remitted or refunded under any circumstances.

CERTIFICATES OF REGISTRATION

Section 12. The plumbing inspector shall keep an annual record in which he shall register under serial numbers all master plumbers regularly engaged in business in the City of Richmond in accordance with this ordinance, and shall annually issue to each such master plumber a certificate of registration in card form, certifying over the signature of the plumbing inspector that the holder has passed the examination given by the board of plumbing examiners, has filed the required bond, and is licensed to conduct the business of master plumber in the City of Richmond. Such card shall bear upon its face the name, address and signature of the licensee and his registration number, and shall be carried for identification purposes at all times when working under this ordinance, and exhibited upon request of any officer authorized to act under this ordinance.

REVOCATION OR SUSPENSION OF LICENSE

Section 13. Every license issued hereunder shall be subject to revocation or suspension by the Council for violation by the holder or his agent or employee of any requirement of this ordinance, or for any other cause which the Council shall deem good and sufficient, after notice and hearing. Notice of such hearing shall be deemed to have been given when deposited in the United States Post Office in a sealed postpaid envelope addressed to the Licensee at his place of business at least five days prior to the date of hearing. When the license of any person shall have been revoked, no succeeding license shall be issued to such person without the consent of the Council, and upon such revocation all permits outstanding under the revoked license shall thereupon become void and shall be cancelled. When any license shall have been suspended, no permit shall be issued to the holder thereof and no new work for which permit is required shall be undertaken by such holder during the period of suspension; but this shall not be construed to prohibit performance of any work duly authorized under permits issued under such license prior to the date of suspension. The penalties of revocation and suspension prescribed in this section shall not be a bar to or affect any other remedy or penalty prescribed in this ordinance but shall be cumulative and in addition to such other remedies or penalties.

AUTHORIZED SIGNS

Section 14. Every master plumber shall display by a sign, in a conspicuous location at his place of business, his full registered name and the word "plumbing" or "plumber", and no unlicensed person shall display any like sign.

LENDING LICENSE

Section 15. Any master plumber lending his license to any person or persons, or taking out permits from the plumbing inspector in his own name for the use of any person or persons not regularly registered, shall have his license suspended or revoked as in this ordinance provided.

ALL PLUMBING REGULATED

Section 16. All plumbing, as that term is defined in this ordinance, shall be done in accordance with the requirements of this ordinance.

FEES

Section 17. Upon the issuance of every plumbing permit, fees shall be paid to the plumbing inspector in advance as follows, and all fees paid during any month shall be turned over by the plumbing inspector to the tax collector on the first day of the following month:

Water piping and fixture fees:	
Every fixture up to 10	$ .75
Every fixture over 10	.50
Minimum fee	1.00
Drainage system fees:	
Every house sewer	1.00
Every house sewer replacement	1.00
Every building court sewer connected to street sewer	1.00
Every building court house connected to building court sewer	1.00
Every sewer extension	1.00
Every septic tank outfit	1.00
Gas piping fees:	
Every gas outlet	.25
Minimum fee	1.00

PLUMBING PERMITS

Section 18. It shall be unlawful to install, alter or repair, or cause to be installed, altered or repaired, any plumbing as that term is defined in this ordinance without first obtaining a permit therefor from the plumbing inspector. Provided, that all permits for house sewers which will require opening up of any street or public way will be issued subject to the requirements of ordinances governing same.

Section 19. Permits for installation or alteration of plumbing shall be issued upon written application therefor on forms provided by the plumbing inspector, when such applications have been approved by the plumbing inspector and the required fees paid as herein provided.

Section 20. Plumbing Permits shall show the total number of fixtures proposed to be installed, as indicated by the number of fixture outlets provided for or the number of old fixtures to be replaced, and also the amount of fee paid. Permits for alterations in a drainage system where no new fixture outlets are to be installed shall be issued upon payment of the minimum fee.

Section 21. Permits for gas piping shall show the total number of gas outlets to be provided for and such other information as may be required by the plumbing inspector.

EXPIRATION OF PLUMBING PERMITS

Section 22. If work under a permit be not commenced within six months from the date of issuance, or if after partial completion the work be discontinued for a period of one year, the permit shall thereupon become void, and no work shall be done at the premises until a new permit shall have been secured. A new fee shall be paid upon the issuance of the said new permit.

SPECIAL OWNER'S PERMIT

Section 23. The plumbing inspector may issue to the owner of a dwelling not licensed hereunder a special owner's permit permitting him to install, alter or repair plumbing in or about his said dwelling and its outbuildings, provided however, that no plumbing work authorized under such special owner's permit shall be done except personally by said owner or by a member of his immediate family residing with him; and if this or any other requirement of this ordinance shall be violated by the holder of such special owner's permit said permit shall be subject to immediate cancellation by the plumbing inspector and the holder thereof be liable to the penalty prescribed for violation of this ordinance.

Section 24. All work done under such special owner's permit shall be subject to the permit and inspection fees herein prescribed.

Section 25. Every person desiring to obtain a special owner's permit shall file an application with the plumbing inspector stating the location of the dwelling where the work is proposed to be done and that the applicant is the owner of said dwelling, and such other information as may be required by the plumbing inspector. After approval of said application by the plumbing inspector and before issuance of such permit applicant shall deposit with the plumbing inspector the sum of ten dollars ($10) in cash as a guaranty for the payment of the fees required for plumbing permit and inspections under the terms of this ordinance. The plumbing inspector shall draw against said deposit to pay all such fees and shall return the balance thereof to the applicant upon completion of the work done under such special owner's permit.

INSPECTIONS AND TESTS

Section 26. Upon completion of the drainage system, gas or water supply piping in any building, and prior to the concealment thereof, provided that where the bottom of the first floor joists are within thirty (30) inches of the ground no flooring shall be laid until the rough inspection has been made, the plumbing inspector shall be notified that said work is ready for the rough inspection, and be furnished with the permit number whereupon the inspector shall inspect the same within forty-eight hours thereafter.

Section 27.—The plumbing inspector shall have the authority to inspect the plumbing, drainage system, sewer, septic tank, and gas fittings of any building now or hereafter erected, and in case he finds any of the plumbing therein in an unsanitary condition and dangerous to the public health he shall notify the owner or agent of the building in writing to make the necessary repairs to said plumbing work immediately, under penalty of having the building condemned as a public nuisance. In case such repairs are not made, or commenced and prosecuted in good faith within ten (10) days after notice as aforesaid, such building shall be declared unfit for human habitation and a public nuisance; and it shall be the duty of the city attorneys to take the necessary legal proceedings at once for the abatement of said nuisance, after being directed by the Council to commence such action.

Section 28. The plumbing inspector shall examine and test all plumbing work and materials, and for that purpose all openings in a drainage system lying within a building shall be closed and the pipes filled with water. Any material found defective shall be removed. All joints shall be water tight. Under extraordinary conditions, and if deemed necessary by the plumbing inspector, the smoke or peppermint test may be applied. Wooden plugs shall not be used as testing plugs.

Section 29. Drainage systems may be tested in sections, provided that when all sections are

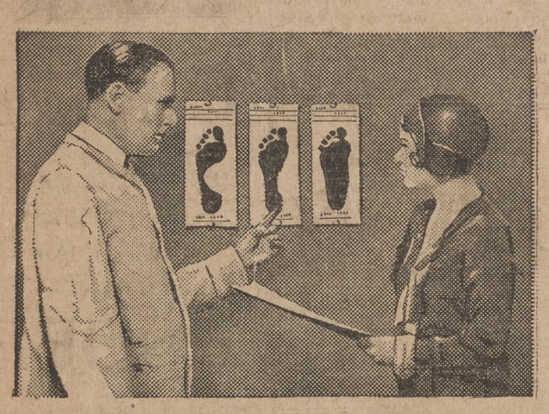
Which Foot is Yours?



This Scientific Test Reveals Exact Foot Condition

NO CHARGE OR OBLIGATION

IF you suffer from your feet you must find out definitely what ails them before you can get relief.

Let our Expert make a complete Test, Analysis and Pedo-graph prints of your stockinged feet. Then you will know for a certainty the exact nature and extent of your foot trouble. At the same time he will demonstrate how the Dr. Scholl Appliance or Remedy you need gives you immediate relief.

No charge whatever is made for this Service, and you are under no obligation to buy. If your feet are normal we will tell you so.

Dr Scholl's Foot Comfort Week

All this week we are having a special Exposition of Dr. Scholl's Foot Comfort Appliances and Remedies, and a Demonstration of their remarkable corrective and pain-allaying virtues. Come in NOW and learn how simple and easy it is to have perfect foot comfort.

PAINFUL CORNS

Loosen—Lift Out

A little known Japanese herb, the discovery of an eminent German scientist (Dr. Stickel) instantly soothes the corn, callous or wart, then loosens it so that shortly you can lift it right out. This new discovery called "Corn Fly" excites the white blood corpuscles to action and granulates the corn at its root so that it drops out and leaves no trace of scar or soreness.

You will also find "Corn Fly Foot Bath Powder" a boon for sore, tired or perspiring feet.

"Corn Fly" for corns, 35c, "Corn Fly Foot Bath Powder" 25c, and "Corn Fly Bunion Remedy" 50c, (all three—$1.10 value—for $1.00), are sold under a positive money-back guarantee by Hi-Gene Co., Newark, N. J., or local druggist.

Japanese Health In Big Decline

TOKYO.—Unprecedented warm weather followed by continued cold rains and snow flurries has caused a sharp increase in the number of cases of pulmonary diseases registered by the police health section. Nearly 700,000 cases of colds and other pulmonary ailments were reported. There were many cases of influenza.

Princess Has No Fear Of Thirteenth

TOKYO.—Dowager Empress Sadako, mother of Emperor Hironito of Japan, has no superstition about the number "13." She chose the 13th to move into her newly completed place in the west compound of the Aoyama Higashi Detached Palace, Tokyo. The Dowager Empress' new home was started in 1928 and probably will be called the O-Miya Palace.

City Keeps Tab On Census Drop

BEAUFORT, N. C.—At least one change in population, discovered by Uncle Sam's enumerators, can be accounted for almost completely. Census figures reveal the population of Maxton, Robeson county, has decreased by seven in the past 10 years.

Six of the seven persons who have left Maxton since 1920 have moved to Beaufort, Carteret county.

Americans are forgetting how to walk, one writer says. But the walkers are learning how to jump, and that helps some.

656 FIRST AVENUE NEW YORK

finally connected together another test shall be made by filling the entire system with water to a height of ten (10) feet above the highest point of connection.

Section 30. Water supply piping shall be subjected to a test by applying the pressure in the city mains continuously for a period of twenty-four (24) hours, or applying a hydrostatic pressure of 125 pounds per square inch for a period of one-half hour. All joints shall be water tight. Any piping found defective shall be removed.

Section 31. Gas supply piping shall be subjected to an air pressure test equal to that of the weight of a column of mercury eight (8) inches in height applied continuously for fifteen minutes. All the necessary tools and appurtenances for such a test shall be furnished by the master plumber to whom the permit was issued for the installation.

Section 32. Upon the completion of the house sewer and its connection with the street sewer or septic tanks as the case may be, and before any portion of the same is covered, the plumbing inspector shall be notified that the said work is ready for inspection and the permit number shall be furnished, whereupon the plumbing inspector shall inspect the same. If in the opinion of the plumbing inspector it be deemed necessary to test the same, it may be tested by being filled with water to a point above the inlet. Any defective pipe or materials shall be removed and replaced in a workmanlike manner with materials that will pass the aforesaid test.

Section 33. Upon the inspection and passage of the workmanship and materials furnished in the drainage system and the gas and water supply piping, as described above, the plumbing inspector shall issue a rough inspection card which shall be posted in the meter box and kept there until after the final inspection as in this ordinance provided.

Section 34. Immediately upon the completion of the plumbing, drainage system, gas and water piping, the plumbing inspector shall be notified that said plumbing work is ready for final inspection, and he shall be furnished the permit number, whereupon the plumbing inspector shall make a final inspection of such work within forty-eight (48) hours after receiving said notice; and if he finds the same to conform to the requirements of this ordinance a certificate of final inspection shall be issued by him to the master plumber performing such work. If such final inspection be of gas piping a copy of the certificate of final inspection shall be issued to the gas company supplying gas to the premises, notifying it that such gas piping has been found satisfactory and ready for the setting of a gas meter or meters, and it shall be unlawful for any gas company or person to set or cause to be set or connected any gas meter or meters with any gas pipe until such certificate of final inspection as herein provided shall have been given.

Section 35. It shall be unlawful for any person, firm or corporation to use, occupy or inhabit, or to let or lease for the purpose of occupancy or habitation, any building in which any plumbing or drainage work, sewer, septic tanks or gas fittings, have been installed after this ordinance has become effective, unless such work has been installed according to the terms of this ordinance and a certificate of final inspection issued as herein provided.

MATERIAL STANDARDS

Section 36. Whenever in this ordinance reference is made to any of the following types of materials they shall be deemed to be of such quality, weight and construction as are generally known to the trade:

Standard cast iron soil pipe and fittings.

Extra heavy cast iron soil pipe and fittings.

Galvanized and black wrought iron or steel pipe.

Galvanized and black malleable fittings.

Lead pipe, bends and traps of weight and quality known as "E".

Cast iron or brass drainage fittings.

Brass pipe to be iron pipe size.

Brass tubing and traps to be not less than No. 17 Brown & Sharpe gauge.

Vitrified clay pipe to be of No. 1 grade.

MATERIALS REQUIRED OR PERMITTED

Section 37. All materials shall be of good quality and free from defects.

Section 38. Standard cast iron soil pipe and fittings of like type may be used for all soil, waste, vent or leader pipes except as otherwise provided herein.

Section 39. Except as provided in sections 43 and 101 extra heavy cast iron soil pipe and fittings shall be used for all house drain, soil, waste or leader pipes where same lie underground, and wherever cast iron soil, waste or leader pipes are used in a building where the extreme vertical height of such building exceeds forty-five (45) feet, all pipe and fittings of this type shall have cast thereon the words "Extra Heavy" or "EX HY".

Section 40. Galvanized wrought iron or steel pipe and galvanized malleable fittings shall be used for all water piping work except that brass pipe may be used in lieu thereof.

Section 41. Galvanized or black wrought pipe and malleable fittings, or brass pipe and brass fittings may be used for gas piping subject to the requirements of section 144.

Section 42. Lead pipe may be used for waste or vent pipes provided the extreme length of such waste and vent pipes shall not exceed five (5) feet. All bends or intersections shall be at angles corresponding to sanitary Ts, Ys, 1/16, 1/6 or 1/8 bends. All joints shall be wiped in a workmanlike manner and all connections of lead pipe with either cast or wrought iron pipe shall be made with brass ferrules of the same size as the receiving opening and be connected to same by a wiped joint, and be properly caulked with oakum and molten lead.

Section 43. Brass pipe with brass fittings may be used for water or gas piping. Brass pipe with cast iron drainage fittings may be used for any portion of a drainage system.

Section 44. Brass tubing may be used for extension from a trap of like material provided the extension be made as follows: Extensions or changes in direction on the waste side of trap shall be made by means of a swaged joint, or an exterior brass sleeve, or solder elbow, all joints to be well soldered. Extensions on the inlet side of trap may be made in like manner or by means of slip joint fittings.

Section 45. Vitrified clay pipe may be used for house sewer or drain lines wherever the center line of said pipe lies at a distance of five (5) feet or more outside the foundation wall of any building. Such pipe shall be laid at such a depth that the top of pipe shall be not less than twelve (12) inches below finished grade.

Section 46 The use of intermediate sections of different kinds or types of pipe or fittings shall not be allowed on any soil, waste or leader pipe in any house drain or house sewer.

Section 47. All changes in direction or branches in a drainage system shall be made with combination Y and 1/8 bends, Ys, 1/16 ¼ 1/5, 1/6 or 1/8 bends, except that one-quarter (¼) bends shall not be used where connection is made with a horizontal line of pipe if the connecting vertical soil or waste pipe extends more than one floor above the point of connection. Connection with a house drain between the vertical and the horizontal, and extensions of cleanouts when necessary to be extended up to a floor level shall be made at an angle not less than that produced by a 1/6 bend. Single or double sanitary Ts may be used on vertical lines only, except as provided for in Section 48.

Section 48. Sanitary Ts when installed horizontally, may be used for vertical vent branches. Sanitary Ts, three (3) inches in size or larger with two (2) inch branch openings may be used when in a horizontal run of pipe, to receive the discharge from a vertical waste pipe.

Section 49. Cleanouts shall be separate fittings in all cases and shall be installed at all changes in direction of the house drain where the run of pipe is over five (5) feet in length and wherever a rain water leader is permitted to be connected to a drainage system, except as provided in Section 94.

Section 50. Cleanouts up to and including four (4) inches in size shall be not less in size, than the pipe which they serve. For use in drainage fittings, they shall be of brass with iron pipe size plugs; for use in cast iron soil pipe, they shall be constructed of uncoated gray cast iron bodies with tapped tops not less than one-fourth (¼) of an inch in thickness and tapped with not less than six full iron pipe size threads and with pigot ends, and shall be of the size as shown in the following table.

Size	Tapped	Height
2"	1½"	3"
3"	2½"	3"
4"	3½"	3"

Cleanout plugs shall be of red brass of the following formula composition: CU-85; SN-5; ZN-5; Pb-5. They shall be not less than one-eighth (1/8) inch in thickness and shall weigh and be of sizes as shown in the following table, provided that where countersunk or inverted type of head may be desired such type may be used if the measurements as here specified are maintained:

Size	Weight	Head
1-1/2"	6-1/2 oz.	1"x1"
2-1/2"	10 oz.	1"x1"
3-1/2"	17½ oz.	1-3/8"x1"

Section 51. Cleanouts shall be placed in an accessible location, the plug of which shall not be set closer than twelve (12) inches to any obstruction. They may be extended through a wall provided they project not less than two (2) inches beyond the finish line of the wall. If impracticable to install in the horizontal line they may be placed in a vertical line by means of a Y branch and bend at a point not greater than two (2) feet from the point of connection with the house drain.

Section 52. Floor connections for slop sinks, closets and other like fixtures shall be made by means of an approved slotted floor flange not less than one-quarter (1/4) inch in thickness. If threaded such flange shall be of brass and shall have at least four (4) threads, standard iron pipe size. If to be caulked such flange shall be of cast brass or cast iron and shall be at least two (2) inches in depth and one-quarter (1/4) inch in thickness. Connection between fixture and flange may be made by means of a pure linseed oil putty or any approved gasket, and the fixture shall be held securely in place by means of brass bolts. When installed on other than concrete floors each water closet shall be connected to the cast iron soil pipe by means of a lead bend or lead pipe wiped on to a brass ferrule and properly caulked into the receiving hub.

Section 53. All bands, square crosses or tees, unions, saddle fittings, cleanouts cast integral in fittings, and bell traps, are prohibited.

Section 54. Side outlets in one-quarter bends shall not receive the discharge from any soil or waste pipe. Heel outlets in one-quarter bends shall not receive the discharge from any soil or waste pipe except when same is in a vertical position.

Section 55. Double hub fittings or inverted joints shall not be used in sewer, soil, drain, leader or waste pipes.

Section 56. Where an extension to any existing drainage system is desired, and where piping of such existing drainage system is in good condition, then such extension may be made of materials of the same type, kind and quality as were originally used, provided the requirements of this ordinance as to installation, size of soil or waste piping and number of fixtures allowed, be adhered to. Vent pipes may be installed to correspond to requirements at time of original installation. Except that no extensions to or connections with vitrified clay or terra cotta pipe shall be allowed within a building other than such as may be required for special chemical wastes.

WORKMANSHIP

Section 57. All plumbing and drainage work shall be done in a thorough and workmanlike manner and subject to the approval of the plumbing inspector.

Section 58. The drainage system shall be arranged in as direct a manner as possible and shall have a continuous fall of not less than one-quarter (1/4) inch to the foot.

Section 59. The drainage system except where same lies on or in the ground shall be securely fastened to the building frame with heavy bands, straps or hooks. Cast iron pipe shall be fastened at intervals not exceeding five (5) feet.

Section 60. Where through architectural conditions it is not feasible to comply strictly with the requirements of this ordinance they shall be complied with as closely as practicable subject to the approval of the plumbing inspector.

Section 61. All joints in cast iron pipe and fittings shall be made with a packing of oakum run full with molten lead and properly caulked.

Section 62. Connections between galvanized wrought pipe and cast iron pipe, where the galvanized pipe size is smaller than the hub size of the cast iron pipe, shall be made by means of a coupling caulked into the cast hub.

Section 63. No portion of the drainage system shall be built into any brick, stone or concrete wall. When necessary to conceal such pipes they shall be run in suitable recesses.

Section 64. Wherever any pipe passes through any foundation wall or partition the surrounding space shall be filled with the same material of which the foundation wall or partition is constructed, or a suitable metal flashing or collar shall be fitted around such pipe in order to prevent the entrance of vermin into the premises.

Section 65. In order that the house sewer may be laid to connect with the street sewer or septic tank in a direct line, all soil and waste pipes or house drain shall be extended to the front, side or rear of the building, as the case may require, and shall extend not less than five (5) feet beyond the foundation wall.

Section 66. House sewers shall be laid in a direct line from the street sewer to their connection with soil, waste or house drain pipes. No bends shall be allowed except to connect with street sewer or with soil, waste or house drain pipe.

Section 67. Every joint or connection in any vitrified clay house sewer shall be made by completely and uniformly filling every portion of any such joint or connection with Portland cement mortar consisting of one part of Portland cement to not more than two parts of sand. Every such joint or connection shall be cleaned out and all obstructions removed on the inside of the pipe after such joint or connection is made, and shall be constructed in a thorough and workmanlike manner so as to be rigid, durable and water tight.

Section 68. House sewers when constructed of cast iron pipe shall be constructed under the requirements of this ordinance.

SIZE OF SOIL AND DRAIN PIPES

Section 69. Soil pipes where horizontal and house drains when serving fixtures requiring outlets three (3) inches or larger shall not be of smaller size than shown in the following table, provided that water closets shall not be served with a soil pipe less than four (4) inches in diameter. Other fixtures requiring floor connections shall be served with a soil pipe not less than three (3) inches in diameter except as provided in section 92:

3" soil pipe for 8 fixtures.
4" soil pipe for 16 fixtures.
5" soil pipe for 40 fixtures.
6" soil pipe for 80 fixtures.
8" soil pipe no limit.

Vertical soil pipes may have the number of fixtures increased one-half the number allowed by the above table.

Section 70. Waste pipes receiving the discharge from "small fixtures" shall not be of a smaller size than shown in the following table:

3" pipe for 30 fixtures.
4" pipe no limit.

TRAPS

Section 71. All plumbing fixtures shall be separately and effectively trapped. Traps may be constructed of cast or tubular brass, cast iron, vitreous china, porcelain or lead.

Section 72. Traps shall be firmly and substantially connected to a fixture, and the trap seal shall be within one (1) foot of the fixture inlet. Excepting as provided in section 116, a trap of one fixture shall not discharge into another trap or fixture. All traps shall be set true to their seal.

Section 73. Brass traps may be connected to a threaded waste pipe by means of a brass hexagon nut, iron pipe size threaded, the same to be soldered to trap end, and the flange covering same shall in no case be soldered to trap.

Section 74. Two sinks, two dental cuspidors, or a sink and a wash tray, when set adjacent in the same room, may be served with one trap.

Section 75. Drum traps shall be not less in size than four (4) by ten (10) inches and shall be fitted with cast brass cleanout, iron pipe size threaded, not less than three (3) inches in size and with either raised or countersunk square heads. They shall be so set that the cleanout will at all times be accessible.

Section 76. Deep seal traps shall be of size not less than one and one-half (1½) inches and shall be so constructed that the waste inlet of trap shall be wholly immersed in the seal of the trap. The body of trap shall be not less than three (3) inches in diameter. The cleanout of the trap shall be so arranged that the body of the trap may be screwed apart for cleaning purposes within the line of the water seal.

Section 77. To provide adequate air circulation in the drainage system and to prevent syphonage or back pressure, except as otherwise provided in this ordinance, all traps shall be provided with vent pipes of a bore not less in size than and within thirty (30) inches of traps served for water closets, and in all other cases within twenty-four (24) inches of the trap served.

Section 78. Vent pipes shall be carried up to and through the roof one (1) foot. No vent shall terminate within a point three (3) feet above nor twelve (12) feet from any door, window or other opening, or any water supply tank. No vent pipe shall terminate within the line of or beneath an eve or overhang of any roof. In the case of a building having more than one roof level where a vent pipe would emerge through a roof level within the limits prohibited above, then said vent pipe shall be extended to the wall supporting the higher roof and carried up to and through this roof one (1) foot. All vent pipes shall be so graded as to drain condensation into soil or waste lines.

Section 79. Main vents serving fixtures located above the first floor shall be extended to the roof the full bore of the trap outlet served. Soil or waste stacks serving fixtures located above the second floor shall be extended full bore to the roof.

Section 80. Branch vents may be used if the branch be made at an angle of less than 90 degrees and provided the pipe size conforms to the following tables. Branch vent sizes for vents from "small fixtures" shall be of pipe sizes as set forth in table No. 1. Branch vent sizes from fixtures served by traps larger than two (2) inches may be of pipe sizes as set forth in table No. 2. Branch vent sizes for fixtures as set forth in tables No. 1 and No. 2, when combined, shall be of pipe sizes as computed on the basis that two fixtures under table No. 1 shall equal one fixture under table No. 2:

TABLE NO. 1

1½" pipe for 2 fixtures.
2" pipe for 8 fixtures.
2½" pipe for 16 fixtures.
3" pipe for 30 fixtures.
4" pipe no limit.

TABLE NO. 2

2" pipe for 4 fixtures.
2½" pipe for 8 fixtures.
3" pipe for 15 fixtures.
4" pipe no limit.

Section 81. Branch vents shall not be made at a point less than three (3) feet six (6) inches above the floor level of the fixture or fixtures served.

Section 82. Every building in which plumbing fixtures are installed shall have at least one four (4) inch main vent. Where more than one house sewer serves any building, each additional house sewer shall be ventilated by at least one two (2) inch vent.

Section 83. A shower bath shall be served with a trap not less in size than two (2) inches in diameter, a bathtub with a trap two (2) inches in diameter, and the traps in either of the above cases may be vented with a one and one-half (1½) inch pipe, subject to the requirements of section 79. A water closet or other plumbing fixture served with a trap larger than two (2) inches shall be vented with a two (2) inch pipe, where the vertical drop from the floor level on which such fixture is situated to the house drain or house sewer is not more than twelve (12) feet provided the length of such vent is not greater than thirty-five (35) feet, but where more than thirty-five (35) feet in length the pipe of such vent shall be increased one-half (½) inch in size for each succeeding thirty (30) feet, subject to the requirements of section 79.

Section 84. Wherever practicable vent pipes shall rise vertically from the point of connection with any waste pipe for a distance of not less than eighteen (18) inches.

Section 85. Batteries of fixtures shall be installed as follows: waste or soil pipe lines shall have a fall not greater than one-quarter (1/4) inch to one (1) foot within the limits of the required vent pipes. Vent pipes for such batteries shall be of the same size of pipe as the soil or waste pipe served, and shall be installed, one at the high end of such waste or soil pipe after the opening for the first fixture, and one beyond the opening for the last fixture in such waste or soil pipe line. Not more than eight (8) fixtures shall be permitted between the limits of any such vent pipes. An exposed cleanout shall be installed at the high point of such waste or soil pipe line, and an additional cleanout shall be installed in such waste or soil pipe line each thirty-five (35) feet of their length.

Section 86. Except as herein provided batteries of "small fixtures" shall not have their waste pipe openings a greater distance apart than three feet six inches. Fixture openings shall be made by means of Y or TY branches. Batteries of water closets or other fixtures requiring floor connections shall not have their soil pipe openings a greater distance apart than five (5) feet, except that floor drains or fixtures served by traps two (2) inches in size may be installed at a greater distance apart than above mentioned provided the waste or soil pipe be of a size larger than that of the trap served. "Small fixtures" may be branched into a soil pipe battery provided they be properly vented.

Section 87. Where a building already constructed is more than one story in height and it is desired to install one or more plumbing fixtures in a store or basement in such building, such fixture or fixtures may be vented by a return vent to the waste line, provided said vent shall be returned from a point not lower than three (3) feet six (6) inches above the floor line of the fixture or fixtures so vented.

Section 88. Every soil or waste stack installed in a building six or more stories in height shall have the vent pipe from the lowest fixture extended to and connected with the house drain by means of a separate pipe or by the extension of the waste pipe of this lowest fixture independently to the house drain.

Section 89. All soil or waste stacks in buildings ten or more stories in height shall be cross connected between the soil or waste and vent pipe lines at each fifth floor with a pipe the size of the vent pipe line at the point of connection and at a point not lower than three (3) feet six (6) inches above the floor line.

LIGHTWELL, DECK, CELLAR, FLOOR AND SUMP DRAINS

Section 90. Lightwell or deck drains shall be not less than two (2) inches in diameter. They shall be trapped and vented, and a cleanout provided adjacent to the trap, and shall be supplied with water by means of a basin waste not less than two (2) inches in diameter and connected above the water seal of trap. If the length of such basin waste be not greater than five (5) feet the basin trap need not be vented; if greater than five (5) feet the basin trap shall be vented independently to the roof.

Section 91. When catch basins are desired, they may be constructed of cast iron or vitrified clay. If of cast iron they shall be of size and type as described in Section 94. If of vitrified clay, they shall be not less than fourteen (14) inches inside diameter and eighteen (18) inches deep, and shall be provided with a trap as described in Section 94, and a suitable cast iron strainer. When traps other than those described above are used, they shall be fitted with a cast iron or brass catch basin and frame not less in size than nine (9) by nine (9) inches with loose hinged cast brass strainer. Such catch basin shall be connected to trap by means of a caulked bell or screwed joint.

Section 92. Cellar drains or floor drains on a first floor, shall have an effective trap not less than three (3) inches in diameter, and need not be vented. Floor drains above the first floor shall have traps not less than two (2) inches in diameter, and shall be vented. Cellar or floor drains shall be fitted with cast iron or brass catch basins with loose, hinged cast brass strainers, which shall be connected to trap by means of a caulked bell or screwed joint, provided that where a cellar drain is installed at a level lower than six (6) feet below the street curb, then said cellar drain shall be fitted, in addition to the above, with an approved ball type backwater trap with a seal of not less than four (4) inches. Where a basement is below the level of the house sewer, seepage water may be discharged into the house sewer by means of an approved type of ejector, provided swing check valve of same size as discharge pipe is installed as close as practicable to ejector.

Section 93. In all public toilets in office buildings, theatres, cafes, restaurants, drug stores, department stores and public comfort stations, a floor drain not less than three (3) inches in diameter shall be installed. If wall type urinals are used the floor drain shall be located beneath the same. If stall type urinals are used and the floor is pitched or sloped to drain to such stalls, the floors need not have a separate floor drain. A hose faucet shall be provided for the washing of said floors or the replenishing of water in said floor drain.

Section 94. To prevent sand, grease, oil or other objectionable matter entering the drainage system, floor drains from private garages or washracks shall be provided with cast iron catch basins not less than twelve (12) by sixteen (16) by eighteen (18) inches deep. Such catch basins may have traps cast integral, cast iron gratings, and shall have exposed accessible cleanout plugs. Public garages and washracks shall have drains not less than four (4) inches in diameter, and catch basins of sizes to be approved by the plumbing inspector. Garage or oiling service pits shall not be connected to any drainage system. Garage floor drains or washracks above the ground floor shall be provided with suitable wrought iron (not steel) or cast iron catch basins.

Section 95. Any portion of a drainage system lying below the level of the house sewer shall be drained into a sump, the floor of which shall be pitched to the center not less than twelve (12) inches and shall be constructed of cast iron or wrought iron (not steel) one quarter (¼) inch in thickness, which shall be embedded in a concrete pit, the walls and floor of which shall be constructed of fine aggregate concrete not less than six (6) inches in thickness.

Section 96. For the discharge of up to and including sixteen (16) fixtures into a sump, the inside diameter of such sump shall be not less than thirty (30) inches and it shall be of sufficient depth to provide a storage chamber of approximately ninety (90) gallons capacity below the lowest inlet pipe. An electric self-acting pump with a discharging capacity of not less than sixty (60) gallons per minute shall be installed in such sump, and the motor and all electrical connections thereof shall be located above the level of the floor of the basement or room in which such pump is located.

Section 97. Sumps receiving the discharge of more than sixteen fixtures shall be installed and fitted in a like manner as above, except that for each additional ten fixtures discharging into such sump the depth of storage chamber shall be increased six (6) inches, approximately forty (40) gallons, and a pump with discharging capacity equal to four (4) gallons per minute for each fixture discharging into the sump shall be supplied. A certificate of the manufacturer of such pump shall be required certifying to such capacity.

Section 98. Sumps shall be provided with a three (3) inch vent which shall extend to roof, and an all brass swing check valve shall be installed in the discharge line before entry into house sewer.

RAIN WATER LEADERS

Section 99. No rain water leader shall be connected with any drainage system except as may be permitted by city ordinance.

Section 100. Leaders shall not be used as soil, waste or vent pipes, nor shall soil, waste or vent pipes be used as rain water leaders.

Section 101. Leaders shall be constructed subject to the same requirements as if they were soil or waste pipes, except that standard cast iron soil pipe may be used when an exterior leader does not exceed sixty-five (65) feet in height, and except further that exterior leaders may be of sheet metal provided the extreme length of such leaders does not exceed thirty-five (35) feet.

Section 102. Roof connections between cast iron or galvanized wrought iron leaders shall be made by means of a combination lead and iron ferrule screwed or caulked to the leader and firmly soldered to the outlet box. Where it is not permissible to connect leaders to the house sewer and a building covers the entire street frontage of the lot, then the outlet box or boxes shall be located as near the street line as practicable in order that the leaders connected thereto shall be discharged into the street gutters.

Section 103. Leaders, if permitted by ordinance to be connected to a drainage system, shall be provided with a trap of the double hub type and fitted with two cleanouts, not less in size than that of the pipe served, and such trap shall be locaied as near the point of connection with the house drain or sewer as practicable; except that where the roof outlet of a leader is at a point twelve (12) feet distant from the adjoining property line and where the roof outlet is above and twelve (12) feet distant from all water tanks, doors, windows and other openings, then said trap may be omitted.

Section 104. The running of roof or surface water on sidewalks is prohibited. Leaders may be discharged into street gutters through standard cast iron pipe, galvanized wrought pipe or vitrified clay pipe, provided that vitrified pipe shall not be used between the curb and property line. An exterior leader on a building which abuts a street line shall be connected at a point five (5) feet above the curb level to cast iron or galvanized wrought pipe by means of a caulked or soldered joint.

PLUMBING FIXTURES

Section 105. Every plumbing fixture, including all the appurtenances thereof hereafter installed, shall be of a design and construction approved by the Bureau of Standards of the Plumbing and Heating Industries Bureau, and every such fixture shall be marked or labeled with a distinctive trademark or name as a means of identification and determination of the quality or standard of said fixture.

Section 106. No such mark or label shall be removed from any fixture until the installation of the fixture has been approved by the plumbing inspector.

Section 107. The requirements of Sections 105 and 106 shall not be constructed as applying to the installation of any second-hand fixture, provided however, that every second-hand fixture hereafter installed shall be approved by the plumbing inspector as to its fitness for use, and every such second-hand fixture shall be distinctly marked as a second-hand fixture and such mark shall only be removed after the installation of the fixture has been approved by the plumbing inspector.

Section 108. Except as otherwise provided, all plumbing fixtures shall be directly supplied with running water, and shall be constructed of porcelain vitreous china or enameled iron. Laundry trays may be constructed of cement.

CLOSETS

Section 109. All closet bowls shall be of types commonly known as washdown, reverse trap, or syphon jet. Water supply to bowls may be by means of either individual tank supply or flushometer type valves. Bowls having one and one-quarter (1¼) inch or smaller flushing inlets and individual tank supply, shall have said tank installed with the bottom thereof set not closer than five and one-half (5½) feet from the floor level upon which the bowl is set.

URINALS

Section 110. Urinals shall be supplied with water by means of individual tank supply or by flushometer type valves, provided that two or more urinals when set up in group form, may be supplied from one tank, the discharge capacity of which shall be not less than one gallon for each urinal at each discharge. Except as otherwise provided the floors, walls and partitions about a urinal and for a distance of two (2) feet in every direction therefrom shall be constructed of either sheet lead, glass, slate, marble, ceramic tile, or cement; provided that when vitreous china or porcelain stall type urinals are used, then only the floor in front of the urinal and for a distance of eighteen (18) inches out need be constructed of ceramic tile or cement, and the stall shall be so set that this tile or cement portion of the floor will drain into the urinal. Stall type urinals shall be served with a trap not smaller than three (3) inches in diameter. Wall type urinals shall be served with a waste not smaller than two (2) inches in diameter, but may be served with a one and one-half (1½) inch trap.

SHOWER STALLS AND DRAINS

Section 111. Shower stalls when constructed on wooden floor shall be provided with a safety pan which shall cover the entire floor and be extended up the side walls, except on the entrance side, a distance of six (6) inches, which pan shall be constructed of sheet lead weighing not less than four (4) pounds per square foot. The floor drain shall be so constructed that the safety pan will drain into the trap serving the fixture, and means shall also be provided of making water tight the connection between the lead safety pan and the floor drain.

BATH TUBS

Section 112. No bathtub shall be built into any corner or recess location unless the fixture is provided with a suitable extension shoulder or lip to engage the wall surfacing so as to prevent water leakage into the closed-in area. No plain roll brim tub shall be installed as a built-in fixture.

DENTAL CUSPIDORS

Section 113. Dental cuspidors shall be supplied with a drum trap with the cleanout plug accessible. The inlet side of this trap may be extended to a distance of not more than six (6) feet by means of a one and one-half (1½) inch lead or brass pipe to the fixture location.

INDUSTRIAL AND OTHER FIXTURES

Section 114. Fixtures for special industrial, restaurant or other uses may be constructed of sheet metal or stoneware. Wood may be used when required for chemical laboratories. Such fixtures shall be connected to a drainage system in a manner satisfactory to the plumbing inspector.

Section 115. Ice refrigerators, ice boxes, ice cream cabinets or other icing or cooling fixtures may be drained into a drainage system if connected in the following manner: they shall discharge into a drip funnel not less than six (6) inches in diameter constructed of copper or brass not less in weight than sixteen (16) ounces per square foot, to which shall be securely soldered a threaded brass pipe extension. Such drip funnels shall be fitted with a suitable protective screen and they shall be securely screwed to the traps serving the fixtures. They shall be served with drum traps which shall be located as closely as practicable to the fixture. When located on a basement or a first floor such traps need not be vented. When located above the first floor such trap shall be vented as herein required, except that where more than one such trap is to be served they may be branched into a common waste pipe and need not be served with independent vent pipes, provided the waste pipe from the trap located at the highest level be extended full bore to the roof, and provided further that such waste pipe shall discharge into an open plumbing fixture. If connected to a drainage system in any other manner than as provided in this section such traps shall be vented as required elsewhere in this ordinance.

GREASE TRAPS

Section 116. Sinks and other fixtures in restaurants, hotels, boarding houses, butcher shops, slaughter houses, packing houses, creameries, butter factories, bakeries, and other places where greasy waste is discharged, shall be connected to a suitable grease trap, the capacity of which shall be of such volume as is found necessary by the plumbing inspector. Such grease trap shall be constructed so as to effectively separate grease and sediment and prevent entry of same into a drainage system. Grease traps shall be served with a waste pipe not smaller than two (2) inches in diameter.

STORE FIXTURES

Section 117. In a store on the ground floor of a building already erected and more than one story in height, where such store does not open into living apartments, sinks, wash basins, or drinking fountains may be installed without a vent pipe provided an approved deep seal trap be used and provided further that such installation is not in conflict with the requirements for grease traps. Sinks and wash basins in barber shops and beauty parlors, and sinks in fish stands, shall be served with deep seal traps which shall have a removable non corrodible screen, so installed as to prevent the passage of hair, sediment or fish scales into the drainage system.

Section 118. No steam exhaust shall connect to any part of a drainage system. The drainage of a steam condenser may be connected to a drainage system provided the method of connection shall be approved by the plumbing inspector.

CHEMICAL SINKS OR DRAINS

Section 119. The drainage system from chemical works or other buildings, where chemicals are used which would tend to disintegrate, corrode or any manner damage materials ordinarily required under this ordinance, shall be discharged into the street sewer through vitrified clay pipe or other approved acid proof pipe, with joint connections made with an acid proof compound.

HOUSE SEWERS

Section 120. Every building in which plumbing fixtures are installed shall be separately and independently connected with a street sewer or a septic tank except as otherwise provided herein.

Section 121. Where a dwelling is on the rear of a lot, on the front of which is another building, the total street frontage of which lot does not exceed twenty-five (25) feet, a separate sewer connection will not be required.

Section 122. Service buildings such as a garage, servants' quarters, power house, or other like building required as an adjunct to and to be used in connection with a residence, pubic building, or commercial plant, may be connected to the house sewer serving the main building.

Section 123. Buildings in a temporary public camp need not be separately and independently connected with the street sewer during the existnce of such temporary camp.

Section 124. House sewers shall be not less in size than the pipe they serve and shall have a continuous and even fall of not less than one-quarter (1/4) of an inch to the foot, except where solid rock is encountered, then with the approval of the plumbing inspector the requirements for an even grade may be omitted provided no portion of a house sewer shall have a fall less than that required above, and provided the house sewer from the street sewer to the property line shall not be less in size than four (4) inches.

Section 125. That portion of a house sewer between the curb and the street sewer shall be at least three (3) feet below the curb grade, except where the street sewer is not at sufficient depth to permit this, in which case said portion of the house sewer shall be covered with at least six (6) inches of concrete to protect it from breakage.

Section 126. Old house sewers may be used in connection with new plumbing work when upon examination they are found to conform to the requirements governing new house sewers as provided in this ordinance.

Section 127. A permit shall not be required for the purpose of removing stoppages or repairing leaks in any house sewer, except when it is necessary to replace house sewers or any portion thereof with other or different material, or when excavation is made necessary outside the property line.

Section 128. House sewers from a building court may be connected to a street sewer through a common pipe provided such common pipe shall be not less in size than six (6) inches in diameter and shall be run in a direct line to the street sewer. A lamphole of the requirements and specifications of the street department of the City of Richmond shall be placed within two and one-half (2½) feet of the point of connection of the house sewer located the farthest from the street sewer. Such house sewers connecting to this common pipe shall be laid under the same requirements as if they were to connect directly to a street sewer.

Section 129. Tile drains placed under cellar or basement floors or around the outer walls of a building may be made of field drain tile or earthenware pipe and discharged into the street gutter. When a tile drain is connected to a house sewer the drain must discharge into a manhole or similar trap with the handhole opening extended up to the ground level and the opening covered and protected with a suitable cast iron cover.

Section 130. When there is no sewer in the street, alley or avenue upon which a lot abuts, or when it is impracticable to connect with the sewer in said street, alley or avenue on account of its elevation above said lot, and it is desired to construct a private sewer across a lot or lots, the necessary easement therefor shall be securd by the owner of the first mentioned lot from the owner of the last mentioned lot or lots, but in no case shall such private sewer be laid under nor where it can be covered by any building.

Section 131. Where there is no available street sewer in the street, alley or avenue upon which a lot abuts, the house sewer, except when constructed as permitted by section 130, shall be connected with septic tanks installed as hereinafter provided; but when a street sewer shall thereafter be constructed and made available to serve said lot, then the aforesaid septic tanks shall be abandoned, removed or broken up, and the house sewer connected with such street sewer.

SEPTIC TANKS

Section 132. All connections with and between each septic tank shall be made by means of Ts set vertical and so installed that the surface of the water content shall not be greatly disturbed when water is flowing through the tank.

Section 133. The discharge from septic tanks shall be conducted through field tile drain of a size not less than that of the pipe entering the tanks and of length as hereinafter specified.

Section 134. Septic tanks receiving the discharge of not more than two toilets shall be not less in capacity than one hundred (100) gallons in each compartment, and shall be served with a field tile drain not less than one hundred (100) feet in length.

Section 135. For each and every additional toilet to be served such tank capacity shall be increased twenty-five (25) gallons, and such length of field tile drain shall be increased not less than twenty-five (25) feet.

Section 136. Septic tanks receiving the discharge of not more than five (5) small fixtures shall be not less in capacity than one hundred (100) gallons and shall be served with a field tile drain not less than one hundred (100) feet in length.

Section 137. For each additional five (5) small fixtures or fraction thereof to be served such tank capacity shall be increased fifty (50) gallons and such length of field tile drain shall be increased not less than twenty-five (25) feet.

Section 138. Field tile drains shall be laid not less than eighteen (18) inches below the surface level of the ground, shall be covered with loose rock, and shall be so laid that seventy-five (75) feet of each one hundred (100) feet thereof shall have a fall of not more than one-eighth (1/8) of an inch to one (1) foot.

GAS FITTING

Section 139. Gas piping under this ordinance shall include all that piping installed for the conveyance of gas for any purpose, beginning at the meter location to and including that point where the outlets are left capped or plugged.

Section 140. The following regulations shall be the standard for the construction and installation of house gas piping work:

Section 141. For illumination purposes the diameter of gas piping installed in any building, the number of lineal feet and the number of one-half (½) inch openings allowed shall be in conformity with the following table:

Size of Pipe	No. of ½" Openings	Capacity in Cu. Ft. Per Hour	Length Allowed
½"	1	30	10'
¾"	3	50	60'
1"	8	100	70'
1¼"	14	170	100'
1½"	24	270	150'
2"	55	580	200'
2½"	100	950	250'
3"	170	1500	300'

Section 142. For fuel and industrial purposes the diameter of gas piping installed in any building, the number of lineal feet and the number of one-half (½) inch to four (4) inch openings allowed shall be in conformity with the following table:

Size	No of Openings Allowed						Capacity in Cu. Ft.	Greatest Length Allowed
	½"	¾"	1"	1¼"	1½"	2" 2½" 3" 4"		
½"	1						30	10'
¾"	3	1					100	70'
1"	8	2	1				175	100'
1¼"	14	4	2	1			350	125'
1½"	24	7	4	2	1		500	150'
2"	55	16	10	5	3	1	1300	200'
2½"	100	28	18	9	6	2	1750	250'
3"	170	60	41	20	12	6	3500	300'
4"	350	140	86	43	20	12	6	350'

To estimate the number of outlets figure as follows:

Each range and water heater equivalent to four ½" outlets.

Each gas arc equivalent to one ½" outlet.

Each hotplate equivalent to one ½" outlet.

Each radiator or room heater equivalent to one ½" outlet.

Each parlor fixture equivalent to one ½" outlet.

Each dining room fixture equivalent to one ½" outlet.

Each kitchen, bedroom, hall fixture equivalent to one ½" outlet.

Each bracket fixture equivalent to one ½" outlet.

Each drop for stores, churches, halls, equivalent to one ½" outlet.

Section 143. The diameter of the supply pipe to every automatic gas water heater or any gas appliance shall not be of smaller size than the inlet of the automatic gas water heater or gas appliance.

Section 144. Galvanized wrought pipe and malleable fittings or brass pipe and brass fittings shall be used for all house gas piping when said pipes are used on the exterior of a building, underground, when embedded in concrete or masonry, or where exposed to unusually damp conditions.

Section 145. All gas pipes shall be well secured to the building and shall be graded toward the meter wherever possible. Vertical pipe risers shall have placed at the bottom of each riser a tee plugged with a long nipple and cap the same size as the vertical pipe to serve as a dirt pocket.

Section 146. Piping trapped by a change of grade shall be provided with a suitable drip pipe, said drip pipe shall be of the same size as the pipe it serves, and the outlet of such drip pipe shall be carried to an exposed accessible location.

Section 147. All branches shall be taken from sides or top of horizontal runs.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."
Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

SHOW of SHOWS
by WILLARD KEEFE

Copyright 1929, Warner Bros. Pictures, Inc.
"Show of Shows," the Warner Bros. Vitaphone picture was the source for the material on which these stories are based.

SYNOPSIS

Leo Hanlon, landing in Hollywood broke, meets his old college pal, Harry Cronk. Cronk, press agent for Exalted Films, agrees to try to persuade some director to give his friend a bit. Recalling that Larry Ceballos, the dance director, had staged their college show, he arranges an interview for Leo. Cronk also gives him the key to his bungalow and replenishes his exchequer with a loan of twenty dollars.

INSTALLMENT TWO

Cronk's asthmatic sedan transported Leo and himself to the evening's bridge game, which took place in an attractive bungalow on Vine street. This bungalow, Cronk explained, was shared by two girls, Queenie Quinn and Dorothy Troy. He further implied that Dorothy was by way of being something more than just a friend of his, and Leo could please him mightily by remembering it.

"On the other hand," he added, "you'll like Queenie. She's kind to wayfarers, and maybe you'll make a hit with her. Besides she's in

Left to right, Louise Fazenda, Frank Fay, Beatrice Lillie and Lloyd Hamilton.

pictures and maybe can give you a tip."

"In pictures?" echoed Leo. "Doing what?"

"Script clerk. She's on Warners' lot. That's where you'll be if you're lucky. But lucky or not, you'll like Queenie."

"Queenie Quinn—that's an odd name, isn't it?"

"She used to be Agnes Quinn when she blew in from Minnesota, but she assumed this tag for its advertising value. You know, the alliteration. Kind of unforgetable. Her excuse is that there are too many Aggie Quinns and that she gave the Post Office Department a break when she made them one less."

Leo found both girls most agreeable. Queenie was a lively, brown-haired girl of twenty-four or thereabouts. Dorothy Troy, a newspaper woman only recently come to Hollywood from Alaska, was somewhat older. Leo, after inspection of the girls, decided that Harry's "claim" on Dorothy was in slight danger of violation; he favored Queenie immediately. She seemed to possess the precise sort of animation he needed.

The bridge game was, as usual, merely an excuse for four people to sit and discuss whatever came to mind, provided, of course, it wasn't bridge. Chiefly they talked movies, in accordance with what many strangers dimly fancy to be a Los Angeles city ordinance. Since Queenie and Cronk were best qualified to carry on this sort of conversation, Miss Troy and Leo had little to contribute to the discussion. Occasionally, however, Queenie rescued Leo from silence with a casual question; but before it could be developed into much of a subject for protracted conversation, Cronk deftly recalled her into the gossip of the studios.

"If some smart director over at your place wants a corking juvenile, I've got him," Cronk suddenly announced to Queenie.

"Juveniles are so plentiful we're combing them out of our hair," returned Queenie indifferently.

"But this one's a wow," insisted Cronk. "You can't afford to pass him up. I wish our outfit had a spot for him."

"Who is he?" Queenie wanted to know. Cronk indicated Leo, who wasn't quite aware of what it was all about.

"You mean Mr. Hanlon?" Queenie was incredulous. Cronk nodded. "I had no idea you were in pictures," Queenie said to Leo.

"Stage performer," broke in Cronk, before Leo could frame an intelligible denial. "Dramatic roles, also hoofs and sings like an angel. Now there's a lad you can use. Can't you think of something he might fit?"

Queenie thought silently. "Well," she finally ventured, "if Mr. Hanlon can really sing and dance, it might be possible for him to get something in 'Show of Shows.' They're casting that now."

"Splendid!" Cronk's enthusiasm was genuine. "Leo," he resumed, addressing his friend, "there's were you've got to land. Say, there's thousands of dancing jobs in that, and if you can't foot it with the best in the West, then I'm Wallace Beery, and Noah, too."

"There will be an enormous cast," Queenie admitted. "It's a stupendous production."

Leo longed to stand and deny that he had the slightest talent to contribute to it, in the event he managed to get himself hired. But the enthusiasm of Harry and the absolute necessity of a job stilled him.

"What a cast!" Harry now was addressing Queenie. "I hear they've got John Barrymore, Frank Fay, Richard Barthelmess, Beatrice Lillie, Ted Lewis, Alice White, Georges Carpentier, Winnie Lightner and a dozen other stars."

"Several dozen others," Queenie corrected him; "there will be a hundred stars in the production.

"Fancy!" was all Leo was able to achieve by way of surprised comment.

"Queenie," said Cronk, with elaborate casualness, "is Larry Ceballos staging any of the dance numbers?"

"Oh, yes, several of them. He and Jack Haskell."

Cronk threw Leo a triumphant look. "If there's a time step in those dogs of yours," he said, "you'll work in the 'Show of Shows.' The chances are you'll get in the ensembles only, if in anything. But after all, for just this once you shouldn't get sore if they give Barrymore the better of it."

Leo had small hope for himself. "You're engineering what can't fail to be the world's most majestic flop," he told Cronk.

"You may be a big success," Queenie encouraged him, "who knows?"

"That's right, Queenie," applauded Cronk, "talk it up to him. Get him working on your lot and he's a sure thing to buy your lunch."

"No small reward at that," Queenie laughed.

ATTIC LOVER BLAMES NEW MAN

LOS ANGELES, June 13.—UP—Counsel for Otto Sanhuber, charged with the "attic" murder of Fred Oesterreich, wealthy garment manufacturer, tonight attempted to shift the blame for the killing to another man.

Earl S. Wakeman, Sanhuber's attorney revealed that he had asked chief trial deputy attorney Daniel Beecher to arrest and prosecute a man other than Sanhuber.

The deputy prosecutor admitted that the demand had been made, but declared he would take no action at present. He said, however, that his office planned to carefully watch the evidence developing at Sanhuber's trial to see if Wakeman's contention is corroborated.

New Sensations

The demand on the part of Wakeman followed a day in which several sensations developed, the chief of them being Wakeman's assertion in court that Mrs. Walburga Oesterreich, widow of the slain man, had a 'basement lover' at the same time Sanhuber was living in the attic of her home.

Wakeman did not give the name of the asserted "basement" lover, but said the man was about six feet tall and weighed 250 pounds. He said the man would probably be called as a state witness.

The district attorney's office opened the case by stating it was intended to prove that Sanhuber crept from the attic and shot the garment maker while the latter was quarreling with his wife. The state contended that after the shooting, Sanhuber locked Mrs. Oesterreich in the closet cautioned her to blame burglars and then crept back to the attic.

Officers Called.

Two Los Angeles police officers called to the Oesterreich home on the night of August 22, 1922, were the witnesses who spoke of the now famous bolted closet door behind which they found Mrs. Walburga Oesterreich, wife of the slain man.

"We found Mrs. Oesterreich locked in the closet," Captain Art Stoll declared. "The key was on the outside. She insisted her husband was shot by an unknown burglar."

Practically the same testimony was offered by Detective Lieutenant Walter Aubrey.

Woman Held.

Mrs. Oesterreich was arrested on charges of slaying her husband soon after the shooting, but was never brought to trial because of the fact that police were unable to solve the mystery of her discovery in the closet. She is now jointly charged with Sanhuber, but will be given a separate trial after the case of the "attic man" is finished.

Mrs. Flora Rawson and Mrs. Cora Norton, who lived together next door to Oesterrich's costly home were also called as witnesses.

"I heard three shots that night and I went to Mrs. Norton's room" Mrs. Rawson testified. "The Oesterreich shades were drawn. There were lights in their house. We peered from a window of Mrs. Norton's room and distinctly saw the shadow of a man's legs walk past a window.

Berman Will Be Returned To L. A. County

LOS ANGELES, June 13.—UP—Authorization for the return to Los Angeles of Jacob Berman, alias Jack Bennett called the "bright boy" of the Julian Petroluem collapse, was received by the district attorney here today from the United States attorney general at Washington.

Berman, a federal prisoner at McNeil's sIland, will face two state trials here and will be a witness in several others, it was said.

Chief Deputy District Attorney Robert P. Stewart immediately telegraphed Washington asking that Berman be rushed here at once in custody of federal guards.

Stewart said that the authorization will be sent to Warden Archer at the federal prison and that it was believed Berman soon will be started south.

The authorization came after several weeks of communications between Stewart and the attorney general. The latter specified, it was said, that Berman be held in the county jail at all times. The right also was reserved by the government to return Berman to McNeil's Island at any time it should see fit.

The two cases in which Berman is slated to appear as a defendant are a bribery case in which he was accused with his brother, Louis, and Louis Krause, and an old forgery and embezzlement case against Berman.

Berman is under a seven year sentence at McNeil's Island on conviction of using the mails to defraud. His former associate, S. C. Lewis, once Julian president, is serving a similar sentence on the same count. Lewis recently was returned to Los Angeles and acquitted on a charge of attempted jury bribing.

Student Proves Real Trouper

LOS ANGELES—One member of the cast of "The Royal Family" had a broken arm when the dramatic production was staged recently at the University of California at Los Angeles.

And that is the story of John Stein, student actor who proved himself to be a true trouper when he went through the entire performance with an unset fractured arm.

The injury was received just a few minutes before the curtain when Stein fell off a horse. Realizing the "show must go on" he played his part regardless of the pain.

MARRIAGE LICENSE

Cope G. Conley, 26, of 215 Twenty second street, and Geraldine Rhien. 19 of the same address, filed notice of intention to wed in Oakland recently.

TARIFF BILL PASSED BY SENATE

WASHINGTON, June 13.—UP—The Senate passed the tariff bill today according to routine and schedule by a two-vote margin. There was no suspense among Senators or the jammed galleries but the principals of the drama which has consumed exactly one year rose nobly to the occasion with a display of serious and comic forensics to mark one of the great moments.

"The ayes are 44 and the noes are 42 and the conference report is agreed to," said Vice President Curtis at 2:07 p. m. The roll call started at two o'clock and the hundreds of tourists, lobbyists and officials in the galleries were confronted with no surprises as each of the 96 senators slipped into the voting grove for which they have been marked for days, some of them for months.

In the best Elizabethan style, comedy was interspersed with the serious aspetcs. Republican floor-leader James Watson surprised his associates in the closing hours with an old-time stump speech, filled with the swishing gestures he usually reserves for the banks of the Wabash. He bandied arguments freely with Democratic and western Republican orators who interrupted to challenge his claim that "happy days are here again."

Raise Tolls

The bill, officially labelled the Hawley-Smoot measure, and dubbed "the Grundy Bill" by its opponents, will raise customs tolls on imports $107,000,000 a year, according to its supporters, and according to its opponents will increase costs of living to the consumers by maybe a billion a year.

The measure went at once to the House, where leaders will call it up tomorrow for a final vote. Debate will be limited to three hours. Passage there tomorrow is assured, and it will then go to President Hoover for his expected signature. It may be signed before the end of next week, and will become effective at midnight following the affixing of Hoovers' signature. It is a year and a half since the House ways and means committee began work on the bill, and exactly one year since Senate hearings opened.

The Western Republicans and Democrats trained their big guns on the bill and "Grundyism" in the closing specches. Senator Connally, Dem., Tex., said the Pennsylvania Senator was the 'bachelor father" of the bill. He charged that the farm rate increase of which the regular republicans boasted was mostly on sugar, an increased tax which he said would cost the farmers much and benefit only a few of them.

Bill Scored

Senators Borah, Repn. Idaho, and Schall, Repn, Minn., the latter facing a close fight for renomination in a primary Monday, denounced the bill as fake farm relief. "It gives the farmer $1 in agricultural duties and takes away more than $3 from him at the same time in increased industrial levies," Schall said.

Borah asserted the debenture clause, voted by the Senate and eliminated by the regulars when they regained control of the bill, would have made the tariff effective in relieving the farmers.

Senator Simmons, Dem., N. C., recently defeated for re-nomination, who has led the Democratic tariff fight, and Democratic Floor Leader Robinson assailed the bill. Simmons said it was "the worst bill that ever went out of the portals of the Senate," and Robinson warned it would "perpetuate and intensify the inequalities between agriculture and industry."

Watson took the floor for the closing hour for his stump speech, which was so vigorous his shirt-tail nearly became visible. "I know conditions in this country are not as good as they should be, but happy days are coming and this bill will help to bring them," he said. He poked fun at the bills' opponents by name, reporting that they held the bill was 'league with death and a con covenant with hell." There is strife over the bill among the Republican ranks, he noted, but "today's irrestible logic will fix that."

S. O. Increases Price Of Crude

SAN FRANCISCO, June 13.—UP—An advance of from 75 to 90 cents in the price offered by the Standard Oil company of California for crude oil produced in the Santa Fe Springs field, to be effective Saturday, was announced here tonight. The company said these prices would restore the schedule in effect before the reduction on May 17, last, "and bring the prices offered in this field in line with those offered in other Southern California fields."

Rug Beating To Be Limited

PARIS, June 13.—UP— The French Hygiene Council is considering making it a punishable misdemeanor to shake a rug or beat a carpet outdoors.

It is now a law that carpet beaters must not be operated after 10 o'clock in the morning, but the Council has discovered that the courtyards of Paris are filled with microbes whose presence can be traced directly to carpets shaken from upper windows before 10 o'clock.

Likewise the Council may forbid housewives to empty their electric carpet sweepers into the dustbin.

Warnings On Forest Fires Told Drivers

SACRAMENTO, June 13.—With California's long rainless season approaching, the Division of Motor Vehicles today called the attention of motorists of the increased fire hazard that will result to forests and grain fields and urged care in handling lighted cigars, cigarettes and matches.

The motorists were advised that the California highway patrol will enforce rigidly the provisions of the law prohibiting the throwing of lighted cigars, cigarettes and matches from moving cars.

Frank G. Snook, chief of the division, said an order to this effect would be issued to all members of the patrol.

The law defines such an act as a misdemeanor punishable by a fine of not more than $500 or imprisonment in the county jail for a maximum of six months, or both.

Attention of the motorists was drawn also to the fact that the law prohibits the use of muffler cut-outs, a source of fire hazard because of flying sparks.

The cooperation of all drivers of motor vehicles in the effort to reduce fire losses was asked.

Cans Scarce When Used As Tickets

LOVELAND, Colo.—Tin cans in Loveland are scarce since the manager of a local theater gave a "kid's matinee," admission being five cents and five tin cans.

College Students May Glide To Class In Future

OREGON STATE COLLEGE, Corvallis, Ore.—Collegians of the future may "glide" to their classes if campus interest in motorless airplanes continues at the pitch it has attained during the last month.

A club already has been formed here to foster interest and encourage experiments in gliders. The organization The Oregon State Glider club, is comprised mainly of engineering students. They have wired an order to an eastern firm for a glider with a 25-foot wing span, capable of carrying a 200-pound passenger.

Local airmen say that the southwest slope of Old Baldy, west of the campus is particularly good for takeoffs.

It is hoped to have the glider here within a few weeks and set up in time for flights this spring.

U. S. Becoming Vast Desert, Roosevelt Says

NEW YORK, June 13.—UP—America will end its supremacy as a vast desert instead of an increasingly prosperous country, unless it takes care of its forests, Gov. Franklin D. Roosevelt, of New York, warns in an article published in Country Home.

He cites paintings of landscapes in China, done about the time of the discovery of America, which showed prosperous cities and luxurious surroundings in regions which are now little more than barren waste land.

The WAY to WEALTH

THE NEIGHBORHOOD BANK AMERICAN TRUST COMPANY SINCE 1854

The desire to make money quickly is natural but dangerous, when it leads away from safe investment to risky speculation. Many persons became aware of this during the recent break in the stock market. Even those who held good stocks realized the importance and the necessity of having a cash reserve in the bank to meet the unforeseen emergency.

The most important thing it taught was the futility of trying to get rich quick by speculation. The way to wealth is to put money in the bank regularly, where it earns interest and grows steadily, surely and safely.

Come in today. Our officers will be glad to advise with you regarding your financial problems.
